1. How should you give an arm signal to turn left?

A.

B.

C.

D.

2. You're giving an arm signal, ready to turn left. Why should you return your hand to the handlebars while you turn?

A. Because you'll need to hold the clutch lever

B. Because you might hit a pedestrian on the corner

C. To help you keep control of the steering

D. To stop other motorists thinking that you're stopping on the corner

3. What does this sign mean?

A. Airport

B. Side winds

C. Service area

D. Slippery road

4. Which of these signs are you allowed to ride past on a solo motorcycle?

A.

B.

C.

D.

5. Which arm signal shows you're slowing or stopping your motorcycle?

A.

B.

C.

D.

6. Why should you make sure that you cancel your motorcycle's indicators after you've turned at a junction?

A. To avoid misleading other road users

B. To avoid flattening the battery

C. To avoid damage to the indicator relay

D. To avoid dazzling other road users

7. Your indicators are difficult to see due to bright sunshine. What could you do to let other road users know your intentions?

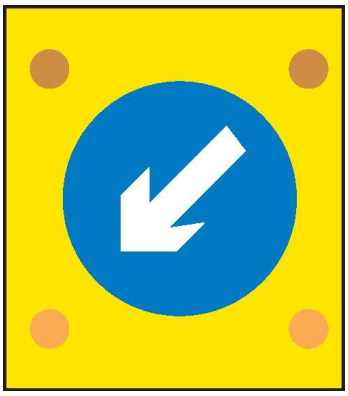
A. Give an arm signal

B. Keep both hands on the handlebars

C. Flash your headlights

D. Sound your horn

8. You're riding on a motorway. What should you do if there's a slow-moving vehicle ahead with this sign displayed?



A. Drive no further

B. Leave at the next exit

C. Pass on the left

D. Pass on the right

9. How can you identify traffic signs that give orders?

A. They're square with a brown border

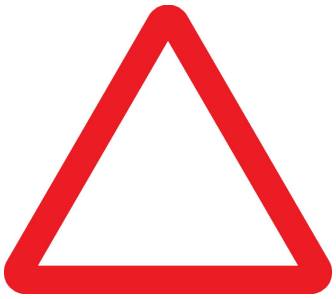
B. They're rectangular with a yellow border

C. They're triangular with a blue border

D. They're circular with a red border

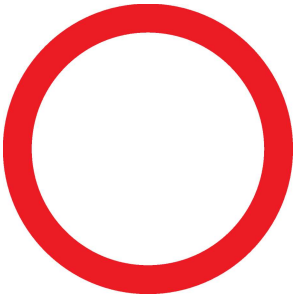
10. What shape are traffic signs giving orders?

A.



B.

C.

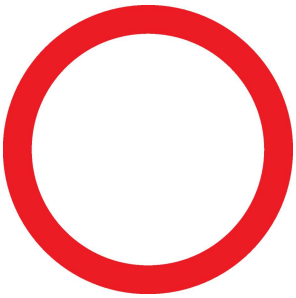


D.

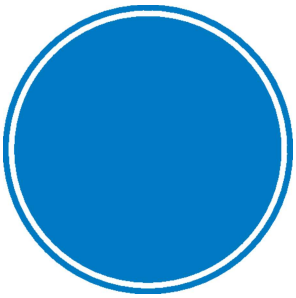
11. Which type of sign tells you what you must not do?

A.

B.



C.



D.

12. What does this sign mean?

A. Maximum speed limit with traffic calming

B. Minimum speed limit with traffic calming

C. Only 20 cars allowed at any one time

D. ‘20 cars only’ parking zone

13. What does this sign mean?

A. End of 20 mph zone

B. Minimum speed limit 30 mph

C. No vehicles over 30 tonnes

D. New speed limit 20 mph

14. What does this sign mean?

A. No motor vehicles

B. Clearway (no stopping)

C. Cars and motorcycles only

D. No overtaking

15. What does this sign mean?

A. No parking

B. No road markings

C. No through road

D. No entry

16. What does this sign mean?

A. Bend to the right

B. Road on the right closed

C. No traffic from the right

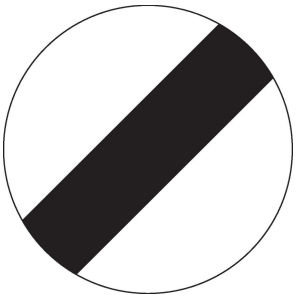
D. No right turn

17. Which sign means 'no entry'?

A.

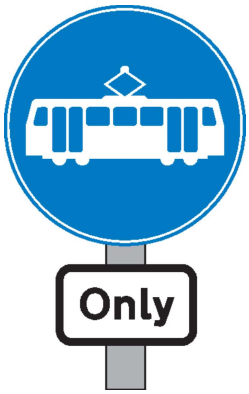
B.

C.



D.

18. What does this sign mean?



A. Route for trams only

B. Route for buses only

C. Parking for buses only

D. Parking for trams only

19. Which type of vehicle does this sign apply to?

A. Heavy vehicles

B. Wide vehicles

C. Long vehicles

D. High vehicles

20. Which sign means no motor vehicles allowed?

A.

B.

C.

D.

21. What does this sign mean?

A. You have priority

B. No motor vehicles

C. Two-way traffic

D. No overtaking

22. What does this sign mean?

A. Waiting restrictions apply

B. Waiting permitted

C. National speed limit applies

D. Clearway (no stopping)

23. What does this sign mean?

A. End of restricted speed area

B. End of restricted parking area

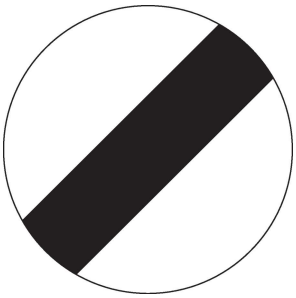
C. End of clearway

D. End of cycle route

24. Which sign means 'no stopping'?

A.

B.



C.

D.

25. What does this sign mean?

A. Waiting restrictions apply

B. National speed limit applies

C. No stopping

D. No entry

26. What does this sign mean?

A. Distance to public telephone ahead

B. Distance to parking place ahead

C. Distance to passing place ahead

D. Distance to public house ahead

27. What does this sign mean?

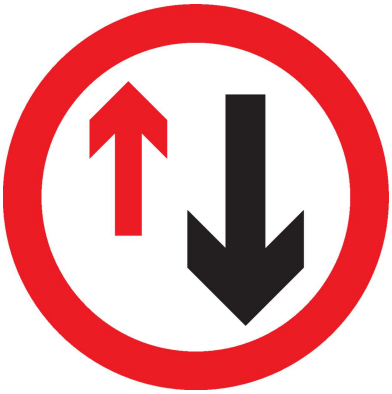
A. Vehicles may park on the left-hand side of the road only

B. Vehicles may not park on the verge or footway

C. Vehicles may park on the right-hand side of the road only

D. Vehicles may park fully on the verge or footway

28. What does this traffic sign mean?



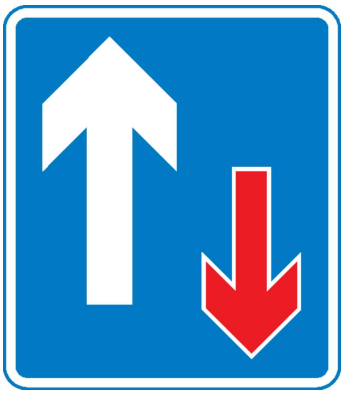
A. Give priority to oncoming traffic

B. No overtaking allowed

C. One-way traffic only

D. Two-way traffic

29. What's the meaning of this traffic sign?



A. You have priority over vehicles coming towards you

B. End of two-way road

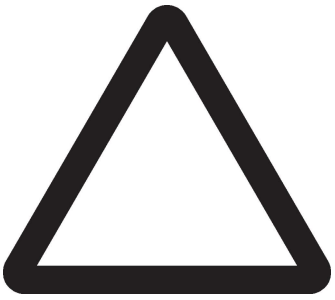
C. Bus lane ahead

D. Give priority to vehicles coming towards you

30. What shape is a 'stop' sign?

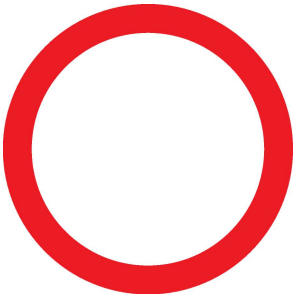
A.

B.



C.

D.



31. In winter, road signs can become covered by snow. What does this sign mean?

A. Stop

B. Crossroads

C. Turn right

D. Give way

32. What does this sign mean?

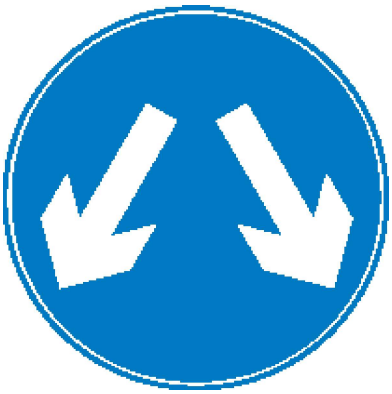
A. Minimum speed 30 mph

B. Service area 30 miles ahead

C. Maximum speed 30 mph

D. Lay-by 30 miles ahead

33. What does this sign mean?



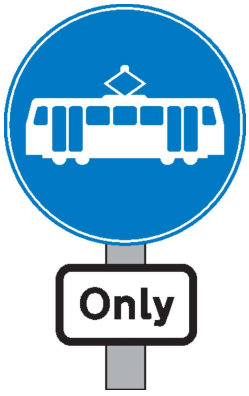
A. Turn off at the next available junction

B. Give way to oncoming vehicles

C. Approaching traffic passes you on both sides

D. Pass either side to get to the same destination

34. What does this sign mean?



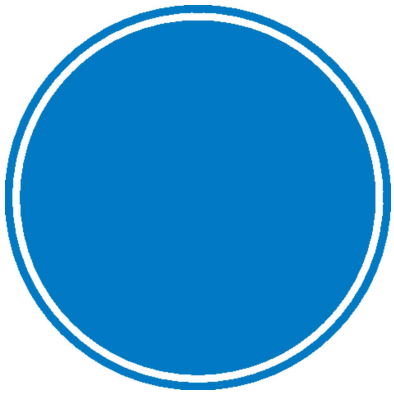
A. Route for buses

B. Give way to buses

C. Give way to trams

D. Route for trams

35. What messages are given by circular traffic signs that have a blue background?



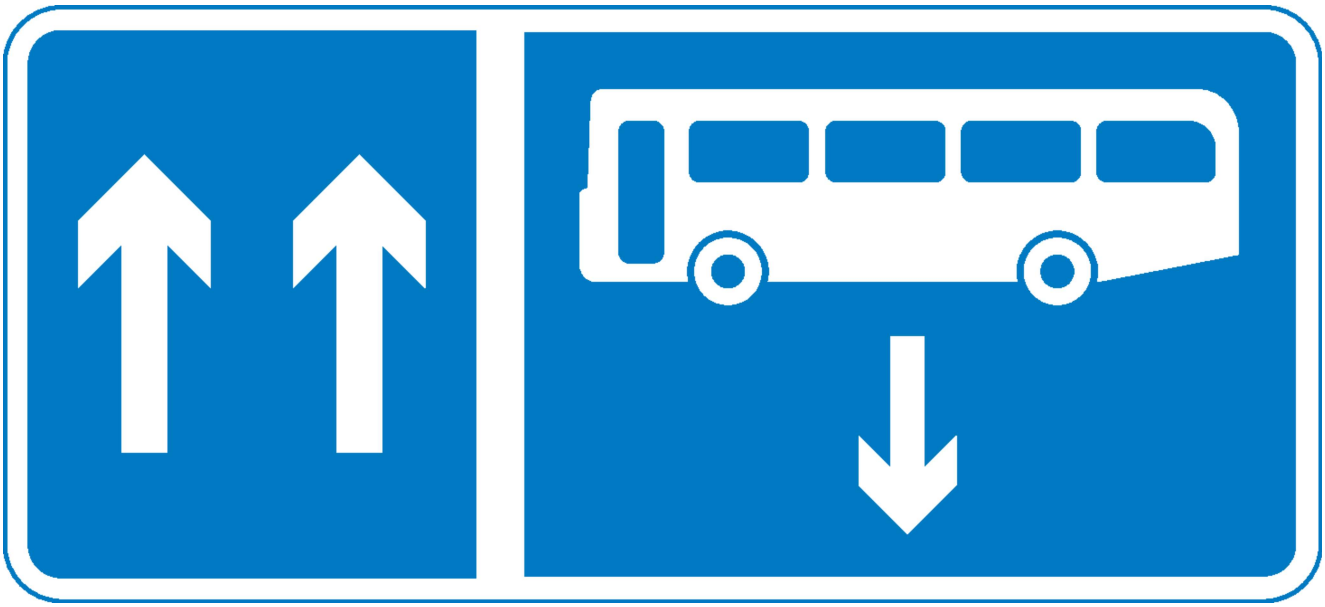
A. They give temporary directions during a diversion

B. They give mandatory instructions

C. They give motorway information

D. They give directions to car parks

36. Where would you see a contraflow bus lane?



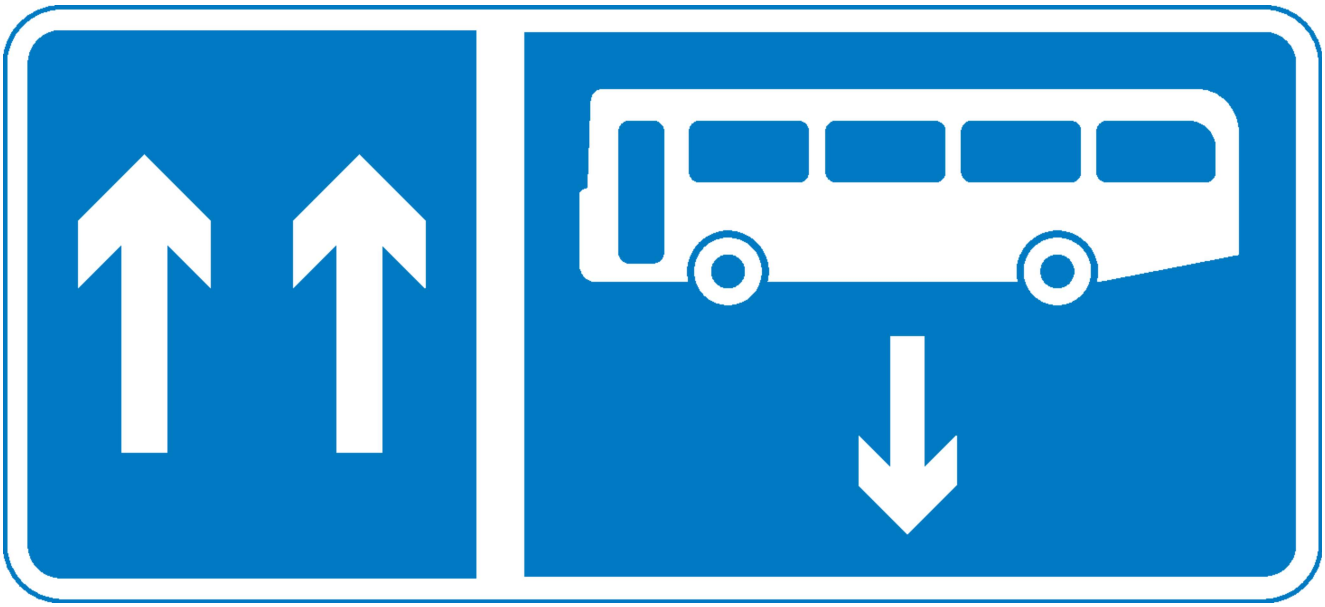
A. On a one-way street

B. On a dual carriageway

C. On a roundabout

D. On an urban motorway

37. What does this sign mean?



A. With-flow bus lane

B. Bus station on the right

C. Contraflow bus lane

D. Give way to buses

38. What does a sign with a brown background show?

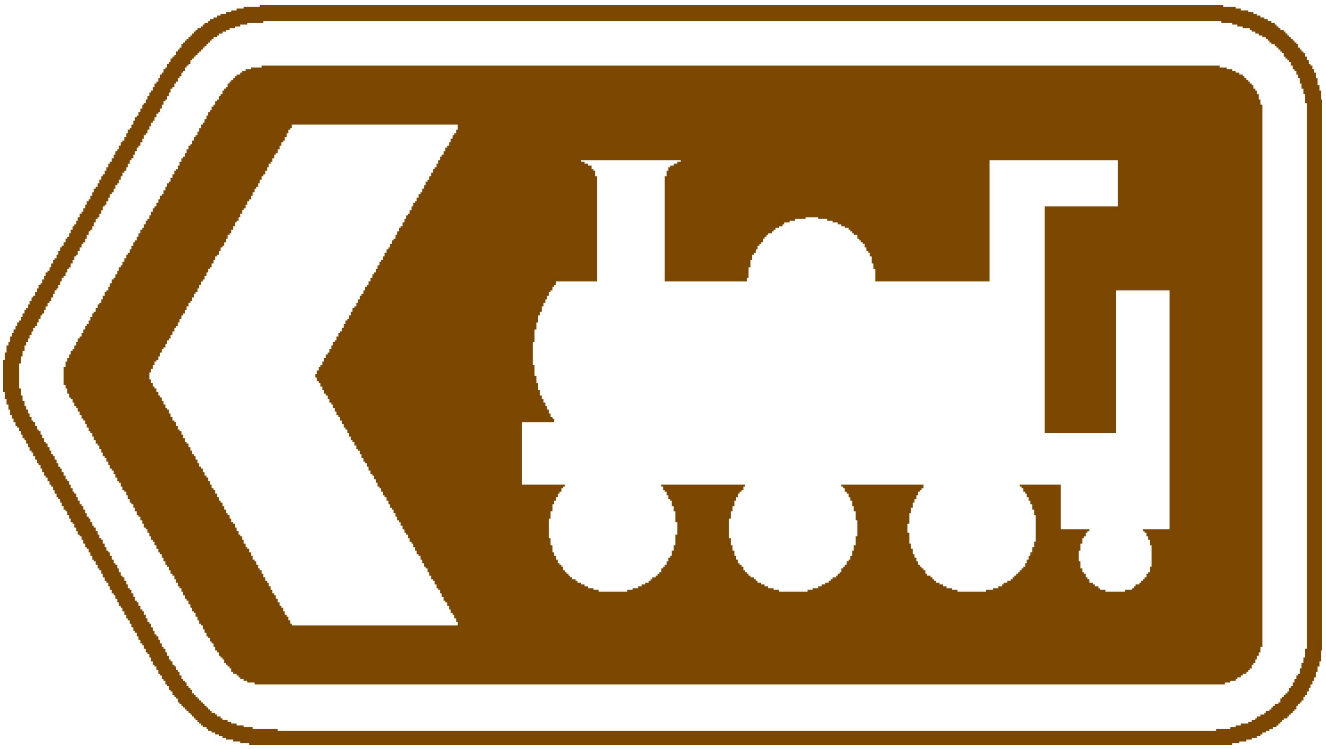
A. Motorway routes

B. Tourist directions

C. Primary roads

D. Minor roads

39. What does this sign mean?



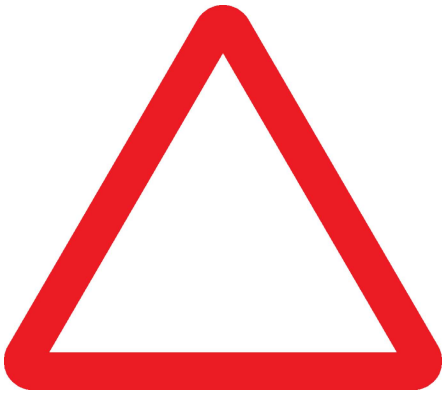
A. Level crossing

B. Tourist attraction

C. Beware of trains

D. Beware of trams

40. What's the purpose of triangular shaped signs?



A. To give orders

B. To give warnings

C. To give information

D. To give directions

41. What does this sign mean?

A. No through road

B. Turn left ahead

C. T-junction

D. Give way

42. What does this sign mean?

A. Six roads converge

B. Multi-exit roundabout

C. Risk of ice

D. Place of historical interest

43. What does this sign mean?

A. Level crossing without gate

B. Crossroads

C. Level crossing with gate

D. Ahead only

44. What does this sign mean?

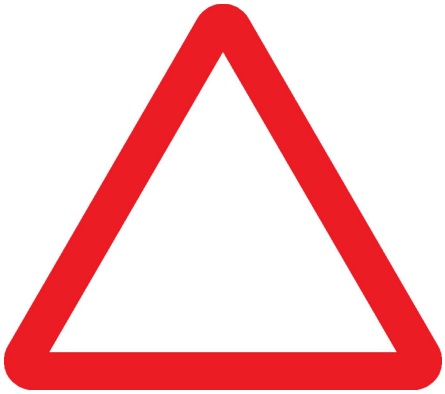
A. No vehicles

B. Roundabout

C. Ring road

D. Mini-roundabout

45. What information would be shown in a triangular road sign?



A. Road narrows

B. Ahead only

C. Keep left

D. Minimum speed

46. What does this sign mean?

A. Cycles aren't allowed

B. Cyclists must dismount

C. Cycle in single file

D. Cycle route ahead

47. Which sign means that pedestrians may be walking along the road?

A.

B.

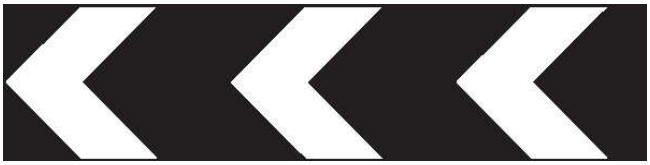
C.

D.

48. Which sign means there's a double bend ahead?

A.

B.



C.

D.

49. What does this sign mean?

A. Give way to trams

B. Wait at the barriers

C. Give way to farm vehicles

D. Wait at the crossroads

50. What does this sign mean?

A. Humps in the road

B. Hump bridge

C. Entrance to tunnel

D. Soft verges

51. Which sign means the end of a dual carriageway?

A.

B.

C.

D.

52. What does this sign mean?

A. Road narrows

B. End of narrow bridge

C. Tall bridge

D. End of dual carriageway

53. What does this sign mean?

A. Road noise

B. Airport

C. Side winds

D. Adverse camber

54. What does this traffic sign mean?

A. Slippery road ahead

B. Tyres liable to punctures ahead

C. Danger ahead

D. Service area ahead

55. You're about to overtake. What should you do when you see this sign?

A. Overtake the other driver as quickly as possible

B. Move to the right to get a better view

C. Switch your headlights on before overtaking

D. Hold back until you can see clearly ahead

56. What does this sign mean?

A. Level crossing with gate or barrier

B. Gated road ahead

C. Level crossing without gate or barrier

D. Cattle grid ahead

57. What does this sign mean?

A. No trams ahead

B. Oncoming trams

C. Trams crossing ahead

D. Trams only

58. What does this sign mean?

A. Uneven road

B. Adverse camber

C. Steep hill downwards

D. Steep hill upwards

59. What does this sign mean?

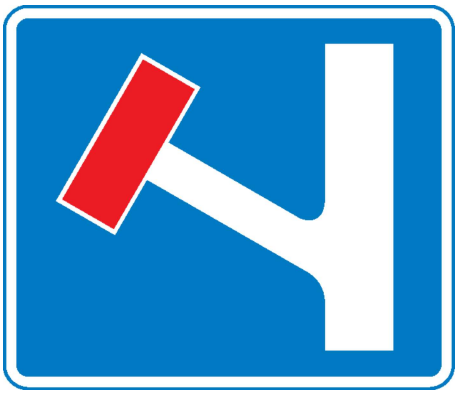
A. Uneven road surface

B. Bridge over the road

C. Road ahead ends

D. Water across the road

60. What does this sign mean?



A. Turn left for ferry terminal

B. Turn left for parking area

C. No through road on the left

D. No entry for traffic turning left

61. What does this sign mean?

A. Telephone box ahead

B. Toilet ahead

C. No through road

D. T-junction

62. Which is the sign for a ring road?

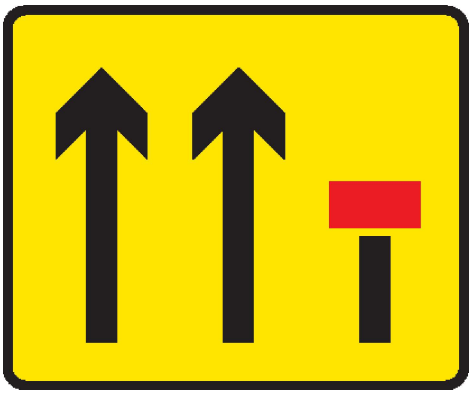
A.

B.

C.

D.

63. What does this sign mean?



A. The right-hand lane ahead is narrow

B. Right-hand lane for turning right

C. Right-hand lane for buses only

D. The right-hand lane is closed

64. What does this sign mean?

A. Contraflow system

B. Change to the left-hand lane

C. Leave at the next exit

D. One-way street

65. What does this sign mean?

A. Rest area for lorries

B. Leave motorway at next exit

C. Lane for heavy and slow vehicles

D. All lorries use the hard shoulder

66. What does a red traffic light mean?

A. You must stop and wait behind the stop line

B. You should stop unless turning left

C. Stop, if you're able to brake safely

D. Proceed with care

67. At traffic lights, what does it mean when the amber light shows on its own?

A. Stop at the stop line

B. Go if no pedestrians are crossing

C. Go if the way is clear

D. Prepare to go

68. You're at a junction controlled by traffic lights. When should you wait at a green light?

A. When your exit from the junction is blocked

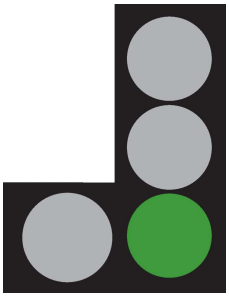
B. When you intend to turn right

C. When you think the lights may be about to change

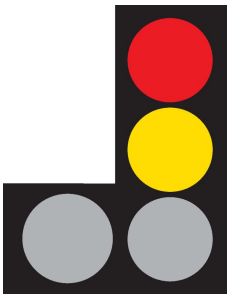
D. When pedestrians are waiting to cross

69. You're in the left-hand lane at traffic lights, waiting to turn left. Which signal means you must wait?

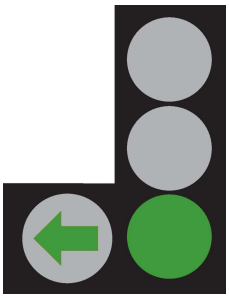
A.



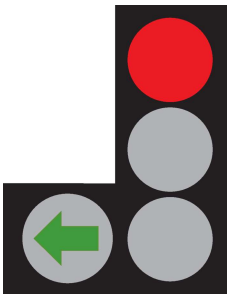
B.



C.



D.



70. What does this sign mean?

A. New traffic lights ahead

B. Traffic lights out of order

C. Temporary traffic lights ahead

D. Amber signal out of order

71. Who has priority when traffic lights are out of order?

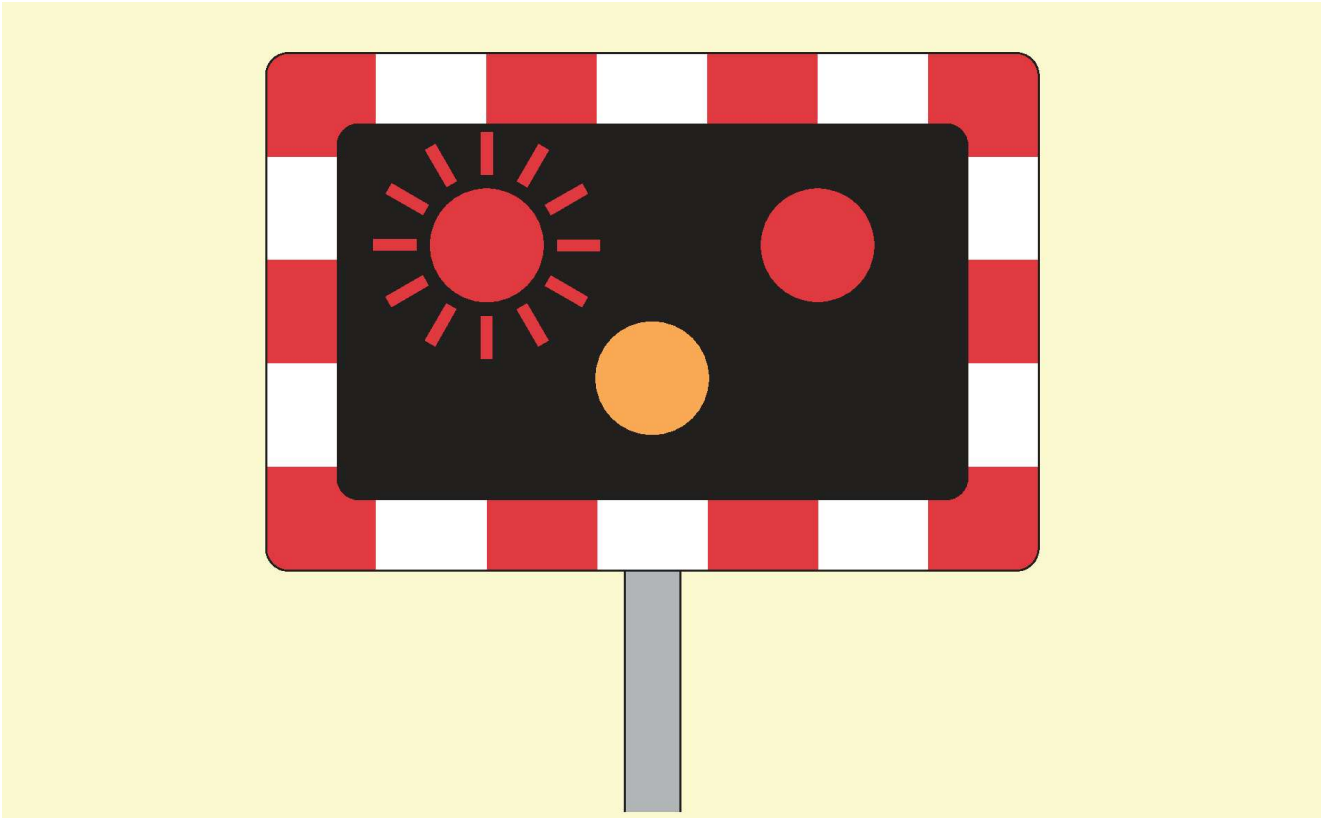
A. Traffic turning right

B. Traffic going straight on

C. Nobody

D. Traffic turning left

72. Where would you find these flashing red light signals?



A. Motorway exits

B. Pelican crossings

C. Zebra crossings

D. Level crossings

73. What do these zigzag white lines mean?

A. Slow down to 20 mph

B. No parking at any time

C. Parking allowed only for a short time

D. Sounding horns isn't allowed

74. When may you cross a double solid white line in the middle of the road?

A. To pass a vehicle that's towing a trailer

B. To pass a road maintenance vehicle travelling at 10 mph or less

C. To pass a car signalling to turn left ahead

D. To pass traffic that's queuing back at a junction

75. What does this road marking mean?

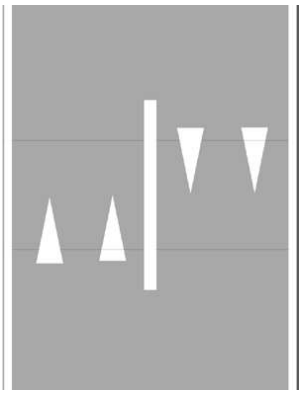
A. Don't cross the line

B. No stopping allowed

C. You're approaching a hazard

D. No overtaking allowed

76. Where would you see this road marking?



A. At traffic lights

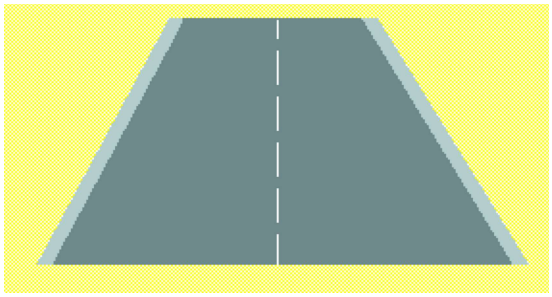
B. On road humps

C. Near a level crossing

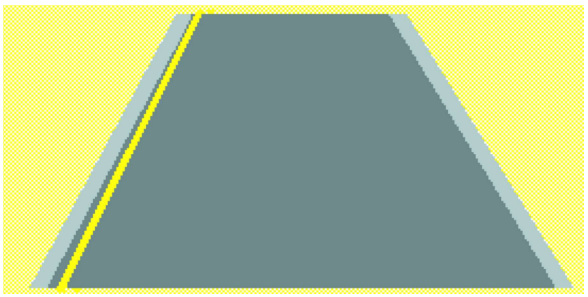
D. At a box junction

77. Which diagram shows a hazard warning line?

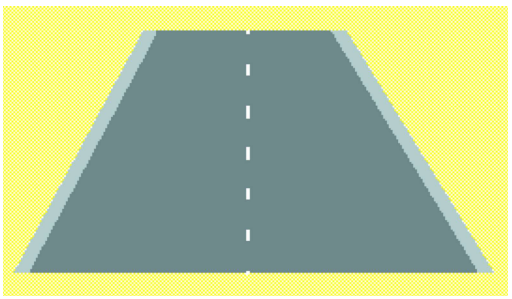
A.



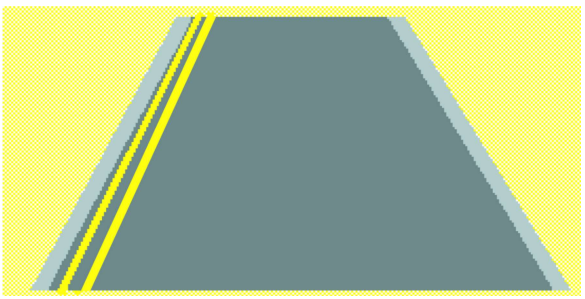
B.



C.



D.



78. Why does this junction have a 'stop' sign and a stop line on the road?

A. Visibility along the major road is restricted

B. The junction is on a downhill gradient

C. It's a busy junction

D. Speed on the major road is derestricted

79. What does this line across the road at the entrance to a roundabout mean?

A. Give way to traffic from the right

B. You have right of way

C. Stop at the line

D. Traffic from the left has right of way

80. How will a police officer in a patrol vehicle signal for you to stop?

A. Pull alongside you, use the siren and wave you to stop

B. Use the siren, overtake, cut in front and stop

C. Flash the headlights, indicate left and point to the left

D. Overtake and give a slowing down arm signal

81. You're approaching a junction where the traffic lights aren't working. What should you do when a police officer gives this signal?

A. Stop at the stop line

B. Turn left only

C. Turn right only

D. Continue ahead only

82. What does this arm signal mean?

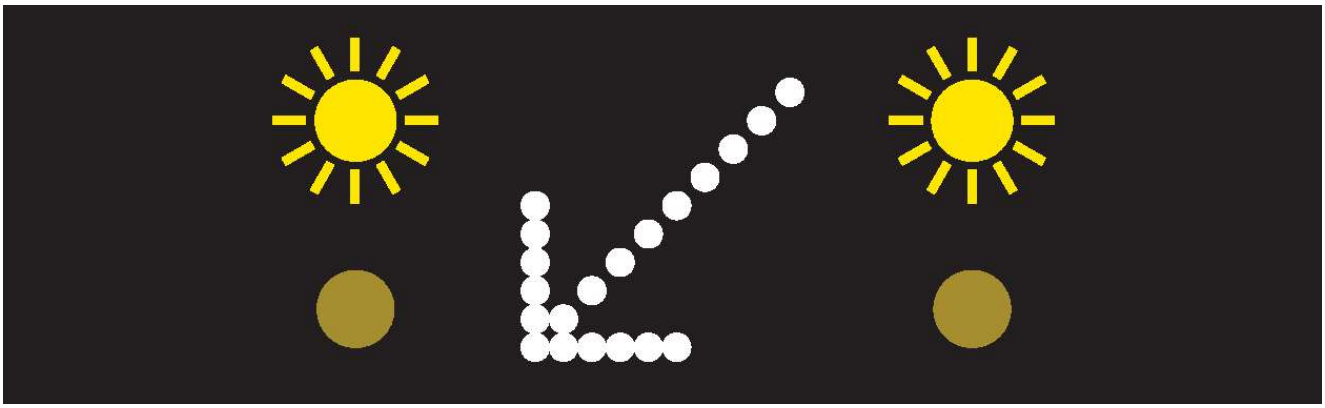
A. The driver intends to turn right

B. The driver is slowing down

C. The driver wishes to overtake

D. The driver intends to turn left

83. What does this motorway sign mean?



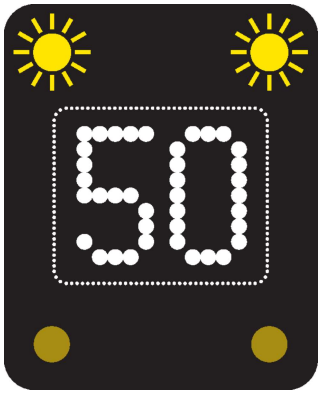
A. Pull up on the hard shoulder

B. Change to the opposite carriageway

C. Change to the lane on your left

D. Leave the motorway at the next exit

84. What does this motorway sign mean?



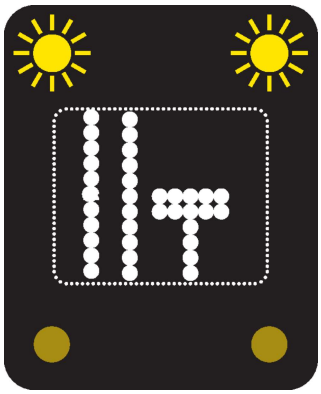
A. Obstruction 50 metres (164 feet) ahead

B. Temporary minimum speed 50 mph

C. No services for 50 miles

D. Temporary maximum speed 50 mph

85. What does this sign mean?



A. Right-hand lane closed ahead

B. Through traffic to use left lane

C. Right-hand lane T-junction only

D. 11 tonne weight limit

86. What does '25' mean on this motorway sign?

A. The speed limit on the slip road

B. The distance to the nearest town

C. The route number of the road

D. The number of the next junction

87. How should the right-hand lane of a three-lane motorway be used?

A. As a right-turn lane

B. As a high-speed lane

C. As an overtaking lane

D. As an acceleration lane

88. Where can you find reflective amber studs on a motorway?

A. On the right-hand edge of the road

B. Separating the slip road from the motorway

C. On the left-hand edge of the road

D. Separating the lanes

89. Where would you find green reflective studs on a motorway?

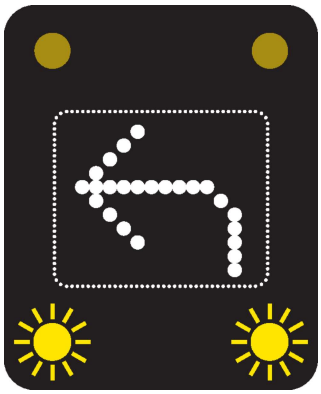
A. At slip-road entrances and exits

B. Separating driving lanes

C. Between the hard shoulder and the carriageway

D. Between the carriageway and the central reservation

90. What should you do when you see this sign as you travel along a motorway?



A. Change lane

B. Leave the motorway at the next exit

C. Turn left immediately

D. Move onto the hard shoulder

91. What does this sign mean?

A. End of bus lane

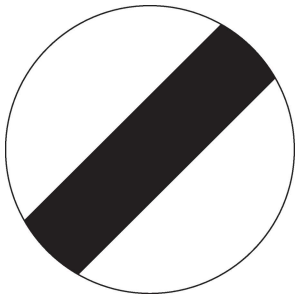
B. No motor vehicles

C. End of motorway

D. No through road

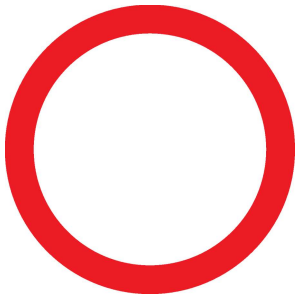
92. Which sign means that the national speed limit applies?

A.



B.

C.



D.

93. What's the national speed limit on a single carriageway road?

A. 40 mph

B. 50 mph

C. 60 mph

D. 70 mph

94. What does this sign mean?

A. Lane ends ahead

B. End of motorway

C. End of restriction

D. Free recovery ends

95. What does this sign indicate?

A. A pedestrian zone

B. A diversion route

C. A picnic area

D. A cycle route

96. What does this traffic sign mean?

A. Compulsory minimum speed limit

B. Compulsory maximum speed limit

C. Advisory maximum speed limit

D. Advised separation distance

97. What should you do when you see this sign at a crossroads?

A. Find another route

B. Maintain the same speed

C. Carry on with great care

D. Telephone the police

98. What does this sign mean?

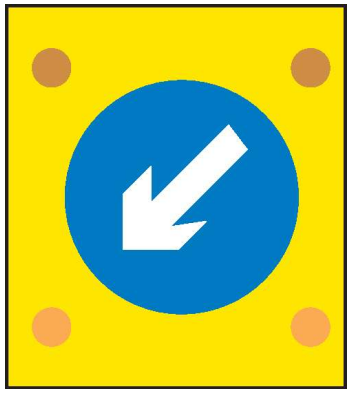
A. No motorcycles

B. Cars only

C. No cars

D. Motorcycles only

99. You're on a motorway. A lorry has stopped in the right-hand lane. What should you do when you see this sign on the lorry?



A. Leave the motorway at the next exit

B. Move into the right-hand lane

C. Stop behind the flashing lights

D. Pass the lorry on the left

100. You're on a motorway. What should you do if there's a red cross showing on the signs above your lane only?

A. Pull onto the hard shoulder

B. Continue in that lane and look for further information

C. Don't continue in that lane

D. Stop and wait for an instruction to proceed

101. When may you sound your vehicle's horn?

A. To warn others of your presence

B. To give you right of way

C. To attract a friend’s attention

D. To make slower drivers move over

102. Your vehicle is stationary. When may you use its horn?

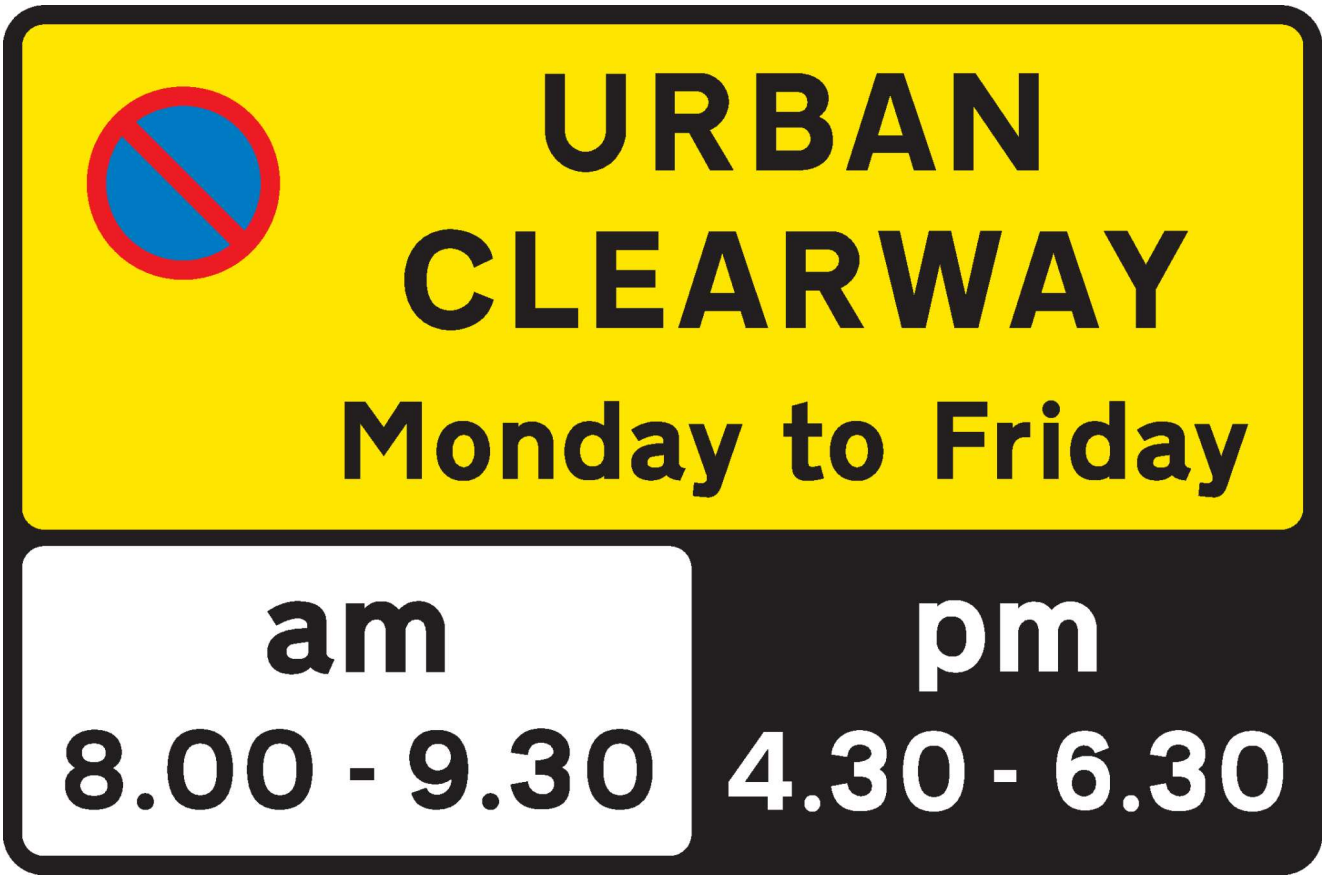
A. When it's used only briefly

B. When another road user poses a danger

C. When the road is blocked by queuing traffic

D. When signalling that you've just arrived

103. What does this sign mean?



A. No parking at all from Monday to Friday

B. You can park on the days and times shown

C. No parking on the days and times shown

D. End of the urban clearway restrictions

104. What does this sign mean?

A. Uneven road surface

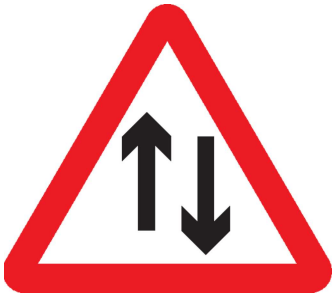
B. Quayside or river bank

C. Steep hill downwards

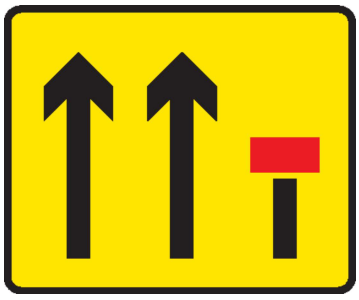
D. Road liable to flooding

105. Which sign means you have priority over oncoming vehicles?

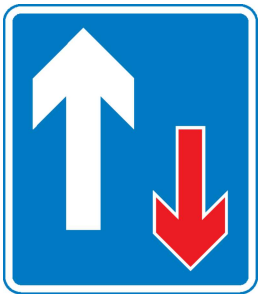
A.



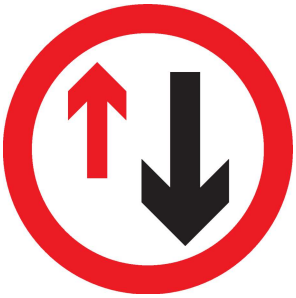
B.



C.



D.



106. What do the long white lines along the centre of the road mean?

A. Lane marking

B. Bus lane

C. Hazard warning

D. Give way

107. What's the reason for the hatched area along the centre of this road?

A. It's a temporary marking to warn of the roadworks

B. It separates traffic flowing in opposite directions

C. It marks an area to be used by overtaking motorcyclists

D. It separates the two sides of the dual carriageway

108. Other drivers may sometimes flash their headlights at you. What's the official meaning of this signal?

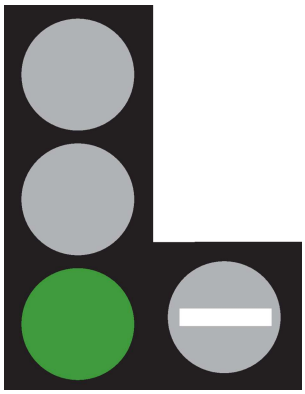
A. They're warning you of their presence

B. There's a radar speed trap ahead

C. They're giving way to you

D. There's a fault with your vehicle

109. What does this signal mean?



A. Both trams and cars must stop

B. Cars must stop

C. Trams must stop

D. Both trams and cars can continue

110. Where would you find these road markings?

A. On a motorway

B. At a railway crossing

C. At a mini-roundabout

D. On a pedestrian crossing

111. A police car is following you. What should you do if the police officer flashes the headlights and points to the left?

A. Pull up on the left

B. Stop immediately

C. Move over to the left

D. Turn left at the next junction

112. You see this amber traffic light ahead. Which light, or lights, will come on next?

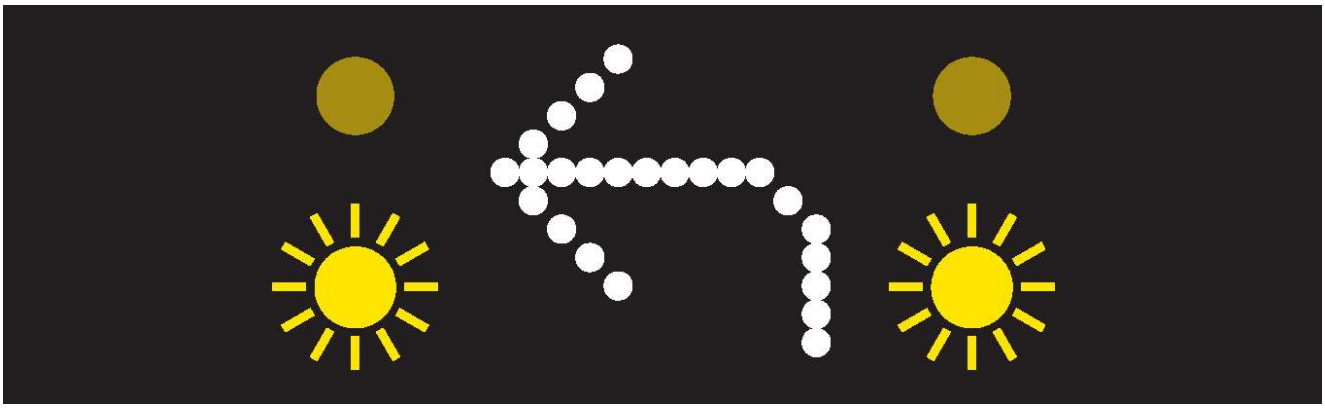
A. Green alone

B. Red alone

C. Red and amber together

D. Green and amber together

113. What does it mean if you see this signal on the motorway?



A. Stop: all lanes ahead closed

B. Leave the motorway at the next exit

C. All vehicles use the hard shoulder

D. Sharp bend to the left ahead

114. What must you do when you see this sign?

A. Stop only if children are waiting to cross

B. Stop only if traffic is approaching

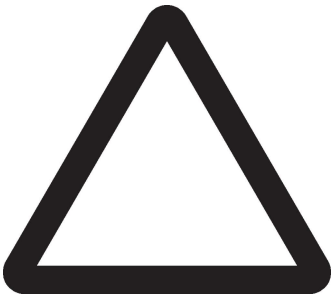
C. Stop even if the road is clear

D. Stop only if a red light is showing

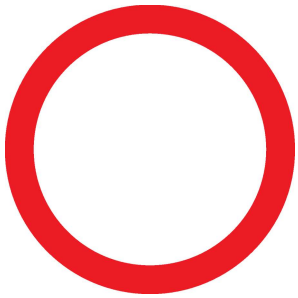
115. Which shape is used for a 'give way' sign?

A.

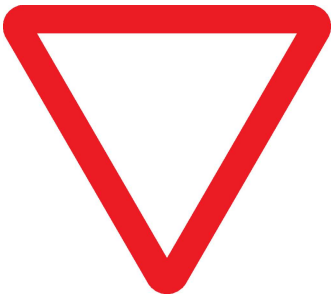
B.



C.



D.



116. What does this sign mean?

A. Mini-roundabout

B. Buses turning

C. Ring road

D. Keep right

117. What does this sign mean?

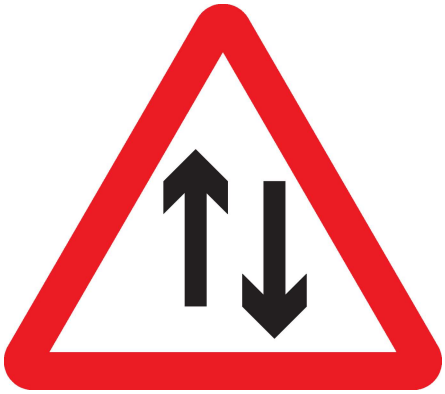
A. Two-way traffic over a bridge

B. Two-way traffic straight ahead

C. Two-way traffic crosses a one-way road

D. Two-way traffic crosses a two-way road

118. What does this sign mean?



A. Two-way traffic straight ahead

B. Two-way traffic crosses a one-way road

C. Traffic approaching you has priority

D. Motorway contraflow system ahead

119. What does this sign mean?

A. Low bridge

B. Hump bridge

C. Traffic-calming hump

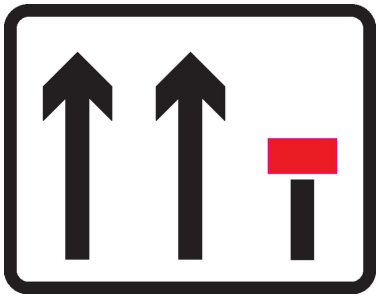
D. Uneven road

120. Which sign informs you that you're coming to a 'no through road'?

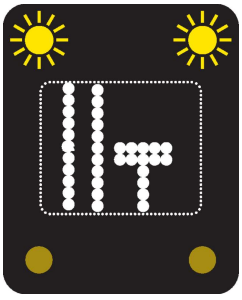
A.

B.

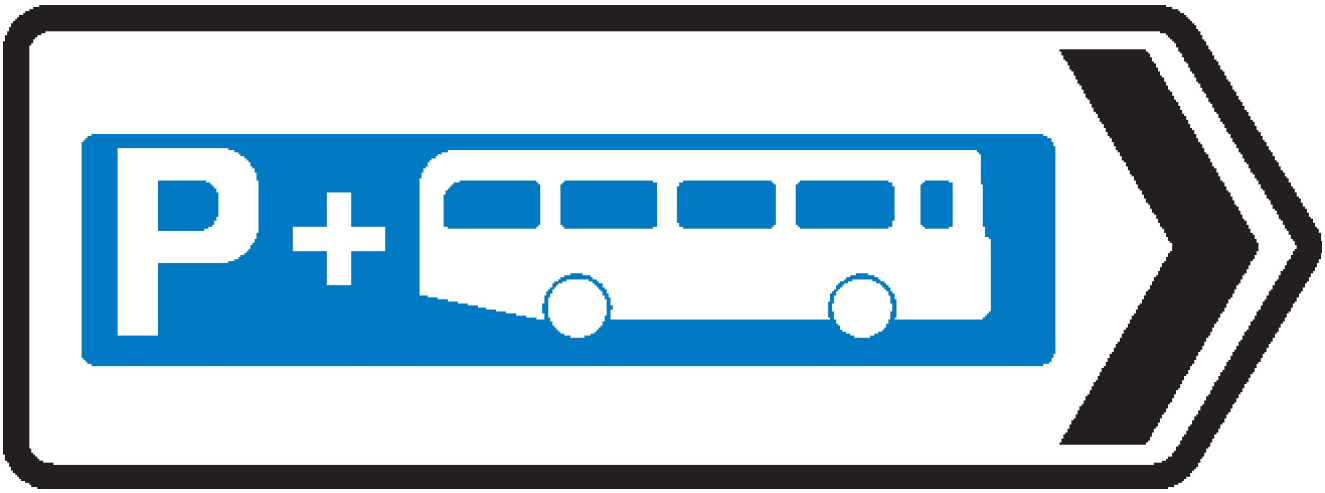
C.



D.



121. What does this sign mean?



A. Direction to bus and coach park

B. Direction to park-and-ride car park

C. No parking for buses or coaches

D. Parking area for cars and coaches

122. What should you do when you're approaching traffic lights that have red and amber showing together?

A. Wait for the green light

B. Pass the lights if the road is clear

C. Take care because there's a fault with the lights

D. Stop because the lights are changing to red

123. You've stopped at a railway level crossing. What should you do if the red lights continue to flash after a train has gone by?

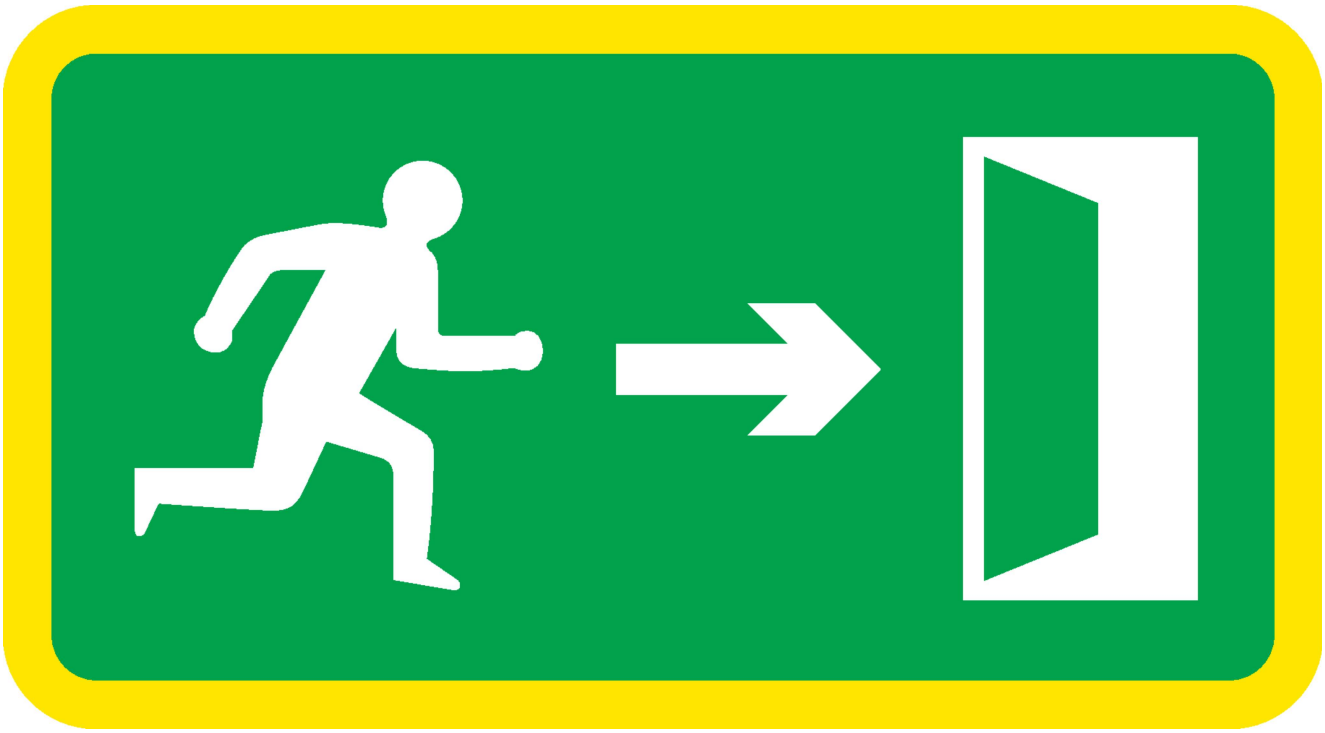
A. Proceed with caution

B. Phone the signal operator

C. Alert drivers behind you

D. Wait

124. You're in a tunnel and you see this sign. What does it mean?



A. Beware of pedestrians crossing ahead

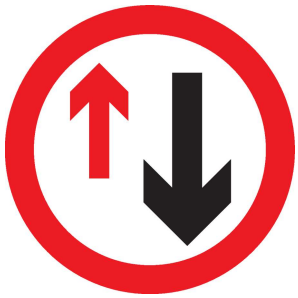
B. Direction to an emergency pedestrian exit

C. Beware of pedestrians: no footpath ahead

D. No access for pedestrians

125. Which sign shows that you're entering a one-way system?

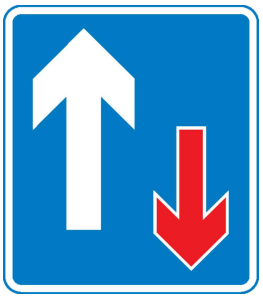
A.



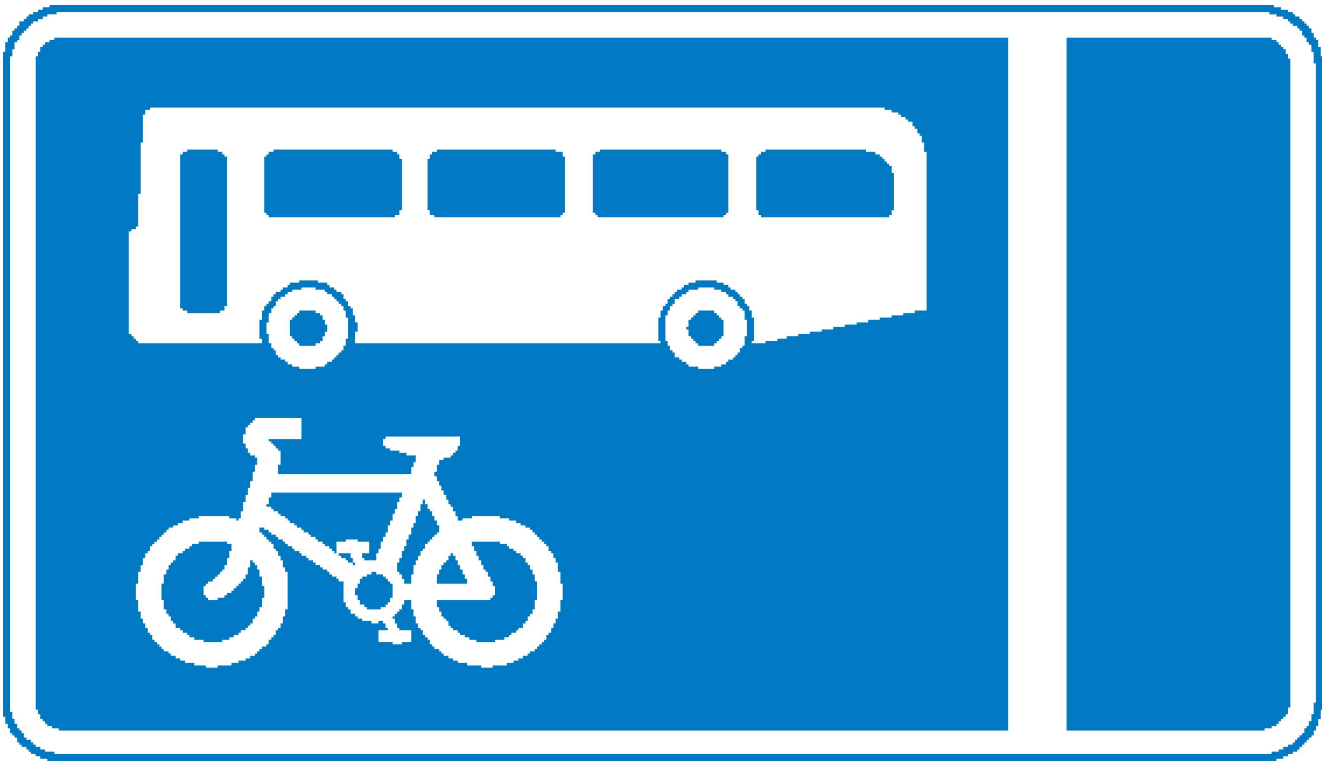
B.

C.

D.



126. What does this sign mean?



A. No buses and cycles allowed

B. With-flow bus and cycle lane

C. Contraflow bus and cycle lane

D. No waiting for buses and cycles

127. Which of these signs warns you of a zebra crossing?

A.

B.

C.

D.

128. What does this sign mean?

A. Pedestrian zone - no vehicles

B. School crossing patrol

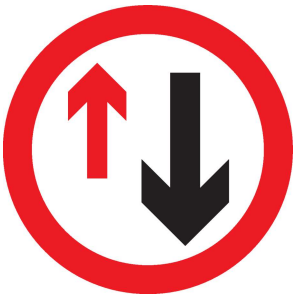
C. No pedestrians allowed

D. Zebra crossing ahead

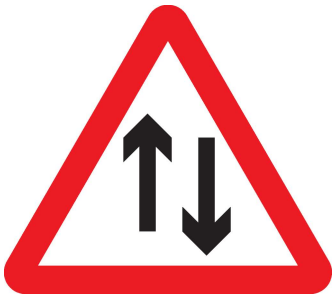
129. Which sign means there will be two-way traffic crossing your route ahead?

A.

B.



C.



D.

130. Which arm signal tells you that the car you're following is going to pull up?

A.

B.

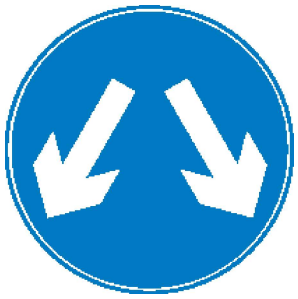
C.

D.

131. Which sign means turn left ahead?

A.

B.



C.

D.

132. What should you be aware of if you've just passed this sign?

A. You can't stop on this road

B. All traffic is going one way

C. Only one lane is in use

D. This is a single-track road

133. You're approaching traffic lights and the red light is showing. What signal will show next?

A. Green alone

B. Green and amber

C. Amber alone

D. Red and amber

134. What does this sign mean?

A. Ancient monument ahead

B. Traffic danger spot ahead

C. Low bridge ahead

D. Tunnel ahead

135. What does this sign mean?

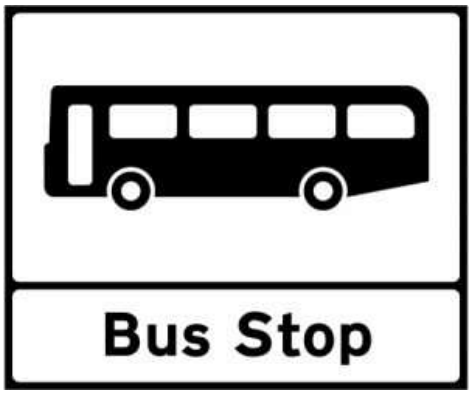
A. Buses and pedal cycles should look right

B. Give way to buses and pedal cycles approaching from the right

C. No buses or pedal cycles allowed

D. Lookout for buses and pedal cycles approaching from the right

136. What does this sign mean?



A. Bus stop

B. Stopping place for large vehicles

C. Stopping place for buses

D. Stopping place for any vehicles

137. What does this sign mean?

A. Stopping place for large vehicles

B. Stopping place for all vehicles

C. Stopping place for local buses from 10am to 4pm

D. Stopping place for tourist buses

138. What does this sign mean?

A. All vehicles are prohibited during the times shown

B. Local Buses may stand at all times

C. All vehicles may stand at all times

D. Local Buses may stand during the times shown only

139. What does this sign mean?

A. Route for pedal cycles only

B. Route for all vehicles

C. Shared route for pedal cycles and pedestrians only

D. No pedal cycles or pedestrians allowed

140. What does this sign mean?

A. Pedal cycles are prohibited

B. Route for pedal cycles only

C. Parking place for pedal cycles

D. Pedal cycles only

141. What does this sign mean?

A. Shared route for pedal cycles and pedestrians only

B. Pedestrians must give way to pedal cycles

C. Pedal cycles and pedestrians are prohibited

D. Separated track and path for pedal cycles and pedestrians

142. What does this sign mean?

A. Parking place for pedal cycles

B. Riding of pedal cycles prohibited

C. Route for pedal cycles only

D. Route for any vehicles except for pedal cycles

143. What does this sign mean?

A. Route for pedal cycles only

B. Pedal cycle route crossing or joining road ahead

C. Riding of pedal cycles prohibited

D. Parking place for pedal cycles

144. What does this yellow panel indicate?

A. Entry restrictions

B. Exit restrictions

C. Waiting restrictions

D. Parking restrictions

145. What does this sign mean?

A. Entry prohibited 24 hours a day, 7 days a week, for 4 consecutive months

B. Waiting prohibited 24 hours a day, 7 days a week, for 4 consecutive months

C. Parking prohibited 24 hours a day, 7 days a week, for 4 consecutive months

D. Waiting prohibited 24 hours a day for only two days (1 May and 30 Sept)

146. What does this sign tell you?

A. Waiting prohibited between times shown on the sign

B. Waiting prohibited at all times

C. Driving prohibited at all times except for the times shown

D. Waiting prohibited at all times except for the times shown

147. What does this sign mean?

A. Give way

B. Parking place for pedal cycles

C. Pedal cyclists to dismount at end of a cycle lane, track or route

D. Advanced stop line for pedal cycles at traffic signals

148. This sign tells you that vehicles may be ____

A. parked at certain times only

B. parked partially on the verge or footway

C. parked wholly on the verge or footway

D. tipped over by strong winds

149. What does this sign mean?

A. No stopping

B. End of 24-hour clearway

C. No stopping except buses

D. No stopping except taxis

150. What does this sign mean?

A. No motor vehicles except solo motorcycles

B. Roundabout

C. No entry for traffic, including pedal cycles

D. No vehicles except pedal cycles being pushed by hand

151. What does this motorway sign mean?

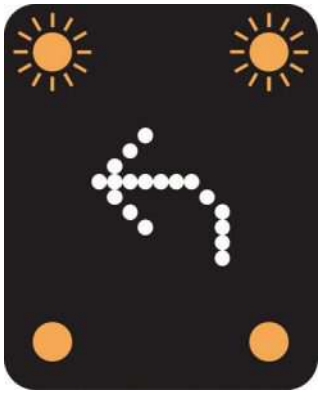
A. Distance to deceleration lane

B. Open level crossings

C. Warning drivers to slow down

D. Countdown markers to a crossing

152. What does this motorway sign mean?



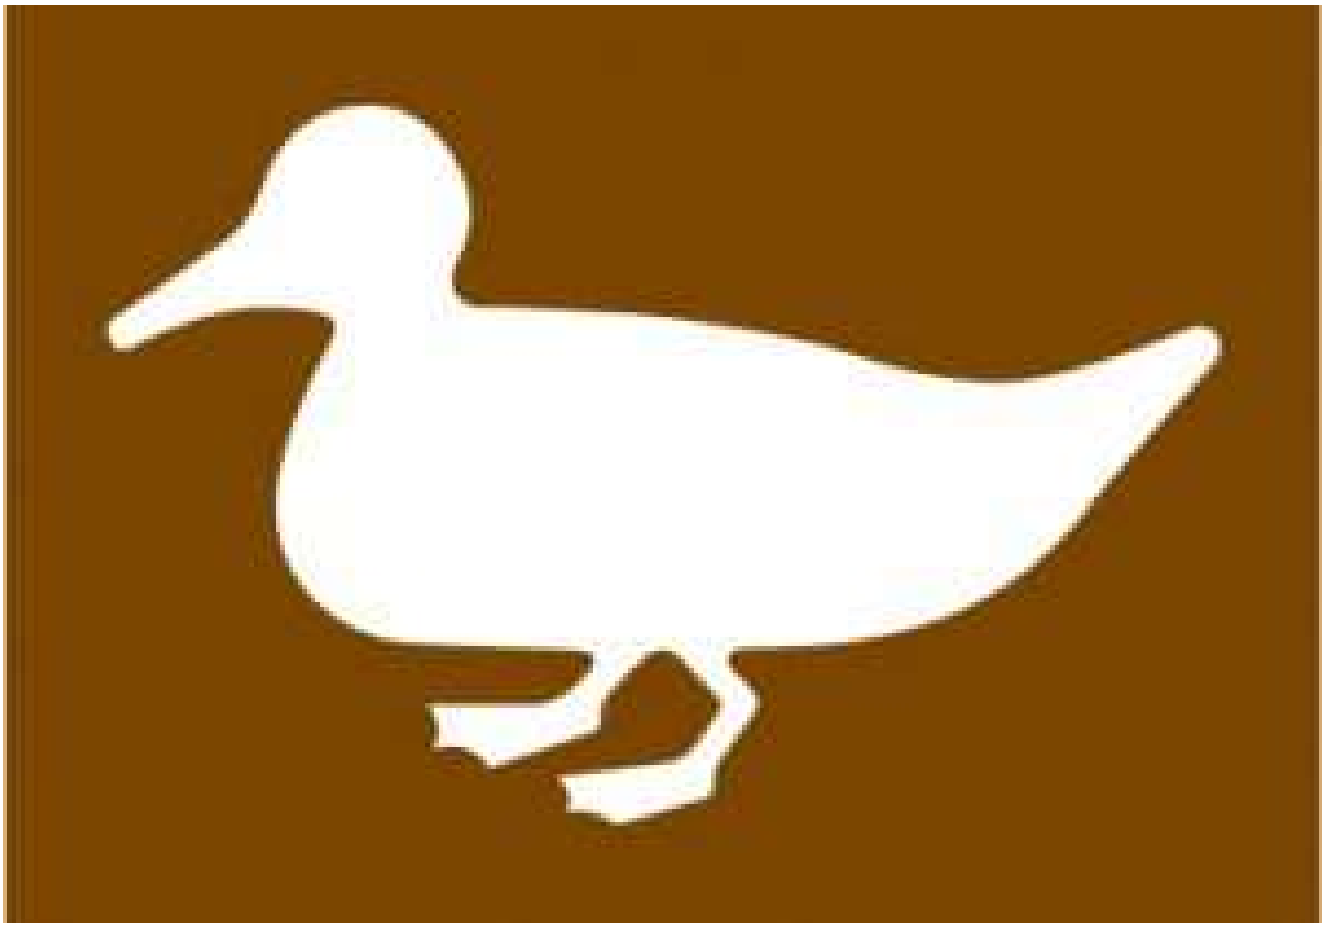
A. Move to adjacent lane

B. Road narrows on right

C. Leave motorway at next exit

D. Overheight vehicles divert

153. What does this sign mean?



A. Pond

B. Bird Garden

C. Nature Reserve

D. Safari Park

154. What does this sign mean?

A. Museum

B. Castle

C. Beach

D. English Heritage

155. What does this sign mean?

A. Road humps in direction indicated

B. Diversion Route

C. Direction to shelter

D. Camping site in direction indicated

156. What does this sign mean?

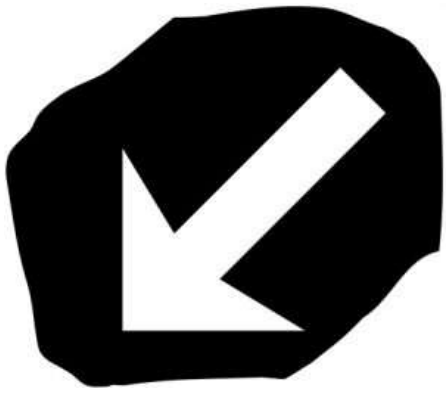
A. Parking area reserved

B. Traffic Signals ahead

C. Diverted traffic

D. Vehicle checks

157. What does this sign mean?



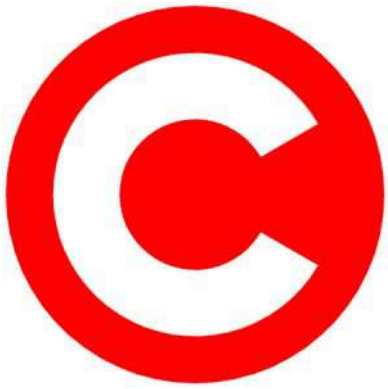
A. Exit slip road separates from the main carriageway

B. Appropriate lanes to use for turning movements at a junction ahead

C. Lane ahead is closed and traffic should move to the next lane on the left

D. Junctions with deceleration lanes and direction of slip roads

158. What does this sign mean?



A. Cycle route

B. Speed camera

C. City Center

D. Road-charging schemes

159. What does this sign mean?

A. Traffic signals ahead not working

B. No traffic signals on this road

C. Stop at next traffic signals

D. Traffic signals ahead

160. What does this sign mean?

A. No stopping

B. No left turn

C. No right turn

D. No U-turn

161. Where would you usually see this road sign?

A. On a motorway

B. On a level crossing

C. On low bridges

D. In the city center

162. If you see alternatively flashing red lights, what must you do?

A. Drive slowly and carefully

B. Stop

C. Continue driving because the lights aren't working properly

D. Call police immediately and report the faulty traffic light

163. What does this sign mean?

A. End of temporary restrictions

B. No through road

C. End of Active Traffic Management

D. End of the motorway

164. What does this sign mean?

A. Mini-roundabout under repair

B. Roundabout

C. Mini-roundabout

D. Roundabout under repair

165. What does this sign mean?

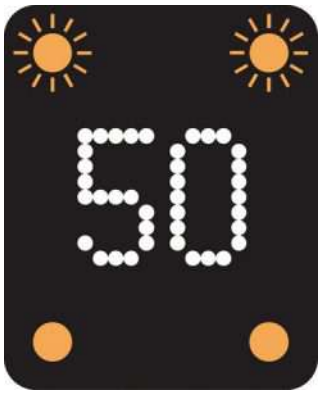
A. Separated track and path for pedal cycles and pedestrians

B. Riding of pedal cycles prohibited

C. Mandatory with-flow pedal cycle lane

D. Parking place for pedal cycles

166. What does this sign show?



A. Distance to deceleration lane

B. Temporary minimum distance between the vehicles

C. Number of road humps

D. Temporary maximum speed

167. You are coming up to a junction and see the following sign. What does it mean?

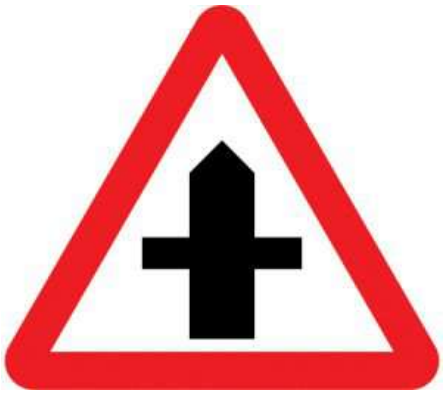
A. It's an escape lane

B. It's a T-junction

C. It's a side road

D. It's a staggered junction

168. You are turning left at a junction and see this sign. What does it mean?



A. You are at a crossroads

B. You are at a roundabout

C. You cannot turn here

D. You are at a staggered junction

169. You are travelling on a road and spot this sign. What does it tell you?

A. Bend to left

B. Traffic merges onto main carriageway

C. Traffic merges from the left

D. There is a junction on a bend

170. Which sign can be used together with this plate?

A. The T-junction sign

B. The roundabout sign

C. The crossroads sign

D. The side road sign

171. What does the following sign mean?

A. Uneven road

B. Beginning of dual carriageway

C. End of dual carriageway

D. Road narrows on both sides

172. Whilst you are driving, you spot this sign. What does it tell you?

A. An upcoming bridge

B. Water spillage on road

C. The road is uneven

D. An upcoming tunnel

173. What does this sign warn you about?

A. Soft verges

B. Slippery road

C. Side winds

D. Water spillage on road

174. What does the following sign mean?

A. Uneven road

B. Slippery road

C. Test your brakes

D. Risk of ice

175. You are driving and see this sign. What does it warn you about?

A. Steep hill to the left

B. Risk of falling rocks

C. Soft verges

D. Side winds

176. What does the following sign warn you about?

A. Slow-moving vehicles

B. Lorries only

C. Traffic queues ahead

D. Steep hill upwards

177. You are driving and see this sign. What does it warn you about?

A. Traffic lights ahead

B. Road narrows on both sides

C. Two-way traffic

D. Traffic queues likely ahead

178. You are driving about and see this sign. What does it tell you?

A. Children going to/from school

B. Pedestrians on road

C. Zebra crossing ahead

D. Frail pedestrians likely to cross

179. You come across the following sign, what does it mean?

A. Accompanied horses or ponies likely to be crossing the road

B. Cattle grid with indication of bypass for horse-drawn vehicles and animals

C. Wild horses or ponies

D. Horse-drawn vehicles likely to be on the road

180. You are travelling along a road and spot this sign. What does it tell you?

A. One-way traffic

B. Slippery road

C. Double bend first to the right

D. Double bend first to the left

181. What does the following sign mean?

A. No motor vehicles

B. Only motor vehicles are allowed

C. No motor vehicles except solo motorcycles

D. No overtaking

182. You come across the following sign, what does it mean?

A. No horse-drawn vehicles

B. Accompanied horses or ponies likely to be crossing the road

C. No ridden or accompanied horses

D. Beware of horses

183. You are travelling along a road and spot this sign. What does it tell you?

A. No motor vehicles

B. No pedestrians

C. Zebra crossing

D. Pedestrians on road

184. You are travelling on a road and spot this sign. What does it tell you?

A. No vehicles over maximum width shown

B. No goods vehicles over maximum gross weight shown in tonnes

C. Weak bridge ahead

D. No vehicles or combinations of vehicles over maximum length shown

185. You are driving about and see this sign. What does it tell you?

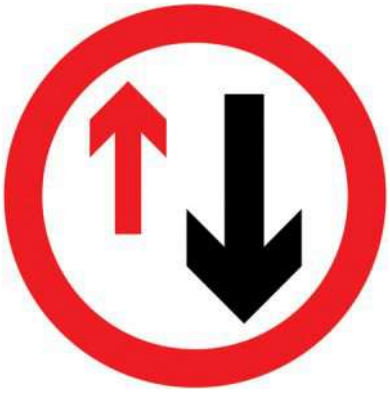
A. No motor vehicles

B. Vehicles may pass on either side

C. No overtaking

D. Give way to oncoming vehicles

186. What does the following sign mean?



A. Give way to oncoming vehicles

B. Two-way traffic

C. Road narrows on left

D. Keep left

187. You are driving and see this sign. What does it tell you?

A. Keep left

B. One-way traffic

C. Turn left ahead

D. No left-turn ahead

188. You are driving along a road and see this sign. What does this sign mean?

A. No overtaking

B. Overtaking allowed

C. Give way to oncoming vehicles

D. One-way traffic

189. What does this sign mean?

A. No motor vehicles

B. No parking

C. No entry

D. The national speed limit applies

190. You are driving along a road and see this traffic sign. What should you do?

A. Follow the road for 40 miles

B. Drive for 40 more minutes

C. Drive at over 40 mph

D. Not exceed 40 mph

191. Where would you usually see this road sign?

A. At the start of a motorway

B. At the start of a tunnel

C. On a roundabout

D. At the pedestrian crossing

192. What does this sign mean?

A. Minimum speed permitted, in mph

B. Maximum speed permitted, in kph

C. 30 miles until the bridge

D. Maximum speed permitted, in mph

193. What does this sign tell you?

A. Start of minimum speed requirement

B. Start of maximum speed requirement

C. End of maximum speed requirement

D. End of minimum speed requirement

194. You are driving along a road and see this sign. What does it mean?

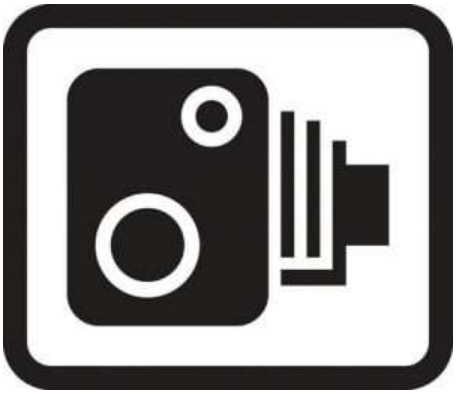
A. Speed camera nearby on a road with a 30 mph speed limit

B. There is a speed camera in 30 miles

C. Speed cameras not in use

D. You are NOT allowed to take more than 30 photographs

195. What does this sign mean?



A. Slow down before the speed camera

B. Enforcement cameras are in use

C. Area for taking photographs

D. End of use of speed cameras

196. What does this sign mean?

A. Start of a speed limit at the boundary of a town or village

B. End of a speed limit at the boundary of a town or village

C. Follow the road for 30 miles

D. 30 miles to town

197. What does this sign mean?

A. Slow down before the speed camera

B. You are NOT allowed to take photographs

C. You are allowed to take photographs

D. Two cameras are in use to measure average speed

198. What does this sign tell you?

A. No vehicles over the height shown may pass the sign

B. No vehicles over the length shown may pass the sign

C. Only vehicles over the height shown may pass the sign

D. Any vehicles may pass the sign

199. What does this sign mean?

A. Speed restriction ahead

B. Height restriction ahead

C. Length restriction ahead

D. Weight restriction ahead

200. What does this sign tell you?

A. Trams crossing with a gate or barrier

B. Trams crossing without a gate or barrier

C. Level crossing without a gate or barrier

D. Level crossing with a gate or barrier

201. What does this sign mean?

A. Automatic level crossings

B. Level crossing without a gate or barrier

C. Trams crossing ahead

D. Level crossing with a gate or barrier

202. Where would you usually see this road sign?

A. Pedestrian crossing

B. Car park

C. Bus stop

D. Level crossing

203. What does this sign mean?

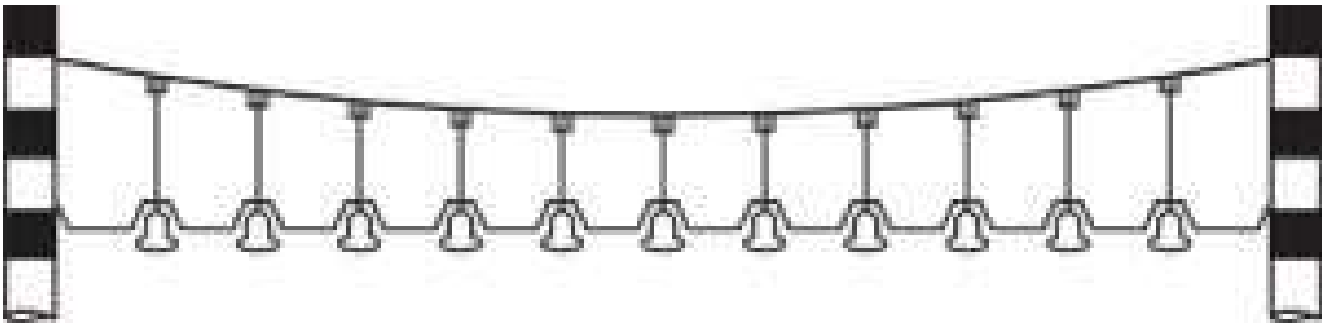
A. Electrified overhead cable

B. Lightning ahead

C. Thunderstorm ahead

D. Sharp bends

204. You're driving and see bells ahead. What do these bells warn you about?



A. Weight of vehicle

B. Speed of vehicle

C. Height of vehicle

D. Length of vehicle

205. Long low vehicles may be at risk of _____

A. Grounding

B. Overturning

C. Skidding

D. Sliding

206. What do the sloping bars on countdown markers represent?

A. Height

B. Time

C. Weight

D. Distance

207. You are a pedestrian at a level crossing. What does this flashing pedestrian signal indicate?

A. Cross with caution

B. It is safe to cross

C. One pedestrian should cross at a time

D. It is not safe to cross

208. What vehicles should park here to contact the signal operator?

A. Large or slow vehicles

B. Cars only

C. Motorcycles only

D. Any vehicles

209. The St Andrew's cross is used at level crossings where _____

A. there is no attendant

B. there are gates or barriers

C. there are no gates or barriers

D. there is an attendant

210. What must you do when you see this sign?

A. Accelerate

B. Reverse

C. Stop

D. Keep driving

211. What does this sign mean?

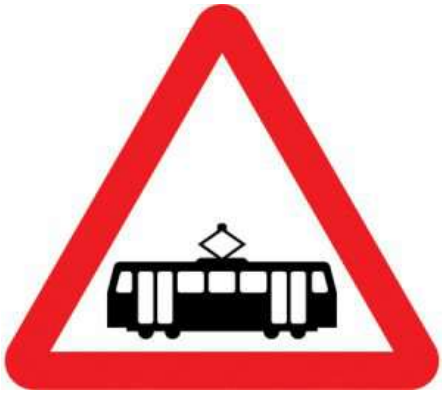
A. Trams only

B. Report the location of trams to police officers

C. Lookout for trams approaching from both directions

D. Give way to trams

212. What does this sign mean?



A. Slow down

B. Tram-only route

C. Give way to trams

D. Trams crossing the road ahead

213. What does this sign mean?

A. No cars

B. No vehicles with passengers

C. No local buses

D. No large vehicles

214. Which vehicles can use this bus lane?

A. Buses and cycles

B. Buses and cars

C. Buses only

D. Buses, cycles and taxis

215. What does this sign mean?

A. No buses and cycles

B. All vehicles allowed

C. Buses and pedal cycles only

D. Large vehicles and cycles only

216. What does this sign mean?

A. Parking place for buses only (no time limit)

B. Parking place for buses only (with time limit)

C. Parking place for all vehicles (with time limit)

D. Parking place (no buses allowed)

217. You are on a red route. What does a single red line on the side of the road mean?

A. No stopping at times shown

B. No parking, but loading is permitted

C. No stopping at any time

D. No stopping except for passenger pickup or drop-off

Answers

1. D -

Arm signals can be effective during daylight, especially when you're wearing bright clothing. Practise giving arm signals when you're learning. You need to be able to keep full control of your motorcycle with one hand off the handlebars.

2. C - To help you keep control of the steering

Consider giving an arm signal if it will help other road users; for example, in bright sunshine, when your indicators may be difficult to see. Don't maintain an arm signal when turning, but return your hand to the handlebars to help you steer through the turn.

3. B - Side winds

Side winds can suddenly blow you off course. Keep your speed down when it’s very windy, especially on exposed roads.

4. A -

Most regulatory signs are circular. A red circle tells you what you mustn't do.

5. B -

Arm signals can be given to reinforce your flashing indicators, especially if the indicator signal could cause confusion; for example, if you intend to pull up close to a side road.

6. A - To avoid misleading other road users

Always check that you've cancelled your indicators after turning. Failing to cancel your indicators could lead to a serious or even fatal collision. Other road users might pull out in front of you if they think you're going to turn off before you reach them.

7. A - Give an arm signal

Arm signals can be used to confirm your intentions when you aren’t sure that your indicators can be seen by other road users. Use the signals shown in The Highway Code and return your hand to the handlebars before you turn.

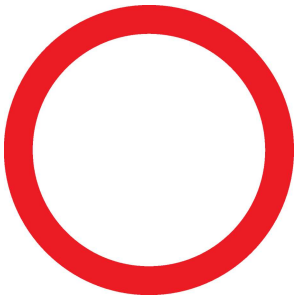
8. C - Pass on the left

If this vehicle is in your lane, you'll have to move to the left. Use your mirrors and signal if necessary. When it’s safe, move into the lane on your left. You should always look well ahead so that you can spot such hazards early, giving yourself time to react safely.

9. D - They're circular with a red border

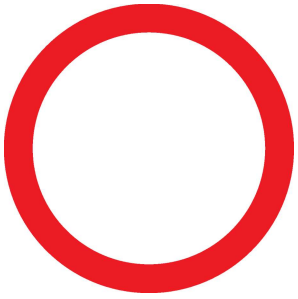
There are three basic types of traffic sign: those that warn, those that inform and those that give orders. Generally, triangular signs warn, rectangular signs give information or directions and circular signs give orders. An exception is the eight-sided 'stop' sign.

10. C -



Road signs in the shape of a circle give orders. Those with a red circle are mostly prohibitive. The ‘stop’ sign is octagonal to give it greater prominence. Signs giving orders must always be obeyed.

11. B -



Signs in the shape of a circle give orders. A sign with a red circle means that you aren’t allowed to do something. Study Know Your Traffic Signs to ensure that you understand what the different traffic signs mean.

12. A - Maximum speed limit with traffic calming

If you’re in a place where there are likely to be pedestrians (for example, outside a school, near a park, in a residential area or in a shopping area), you should be cautious and keep your speed down. Many local authorities have taken steps to slow traffic down by creating traffic-calming measures such as road humps. They're there for a reason; slow down.

13. A - End of 20 mph zone

Where you see this sign, the 20 mph restriction ends and a 30 mph restriction starts. Check all around for possible hazards and only increase your speed if it’s safe to do so.

14. A - No motor vehicles

A sign will indicate which types of vehicles are prohibited from certain roads. Make sure that you know which signs apply to the vehicle you're using.

15. D - No entry

'No entry' signs are used in places such as one-way streets to prevent vehicles driving against the traffic. To ignore one would be dangerous, both for yourself and for other road users, as well as being against the law.

16. D - No right turn

The 'no right turn' sign may be used to warn road users that there's a 'no entry' prohibition on a road to the right ahead.

17. D -

Look for and obey traffic signs. Disobeying or not seeing a sign could be dangerous. It may also be an offence for which you could be prosecuted.

18. A - Route for trams only

Avoid blocking tram routes. Trams are fixed on their route and can't manoeuvre around other vehicles or pedestrians. Modern trams travel quickly and are quiet, so you might not hear them approaching.

19. D - High vehicles

The triangular shapes above and below the dimensions indicate a height restriction that applies to the road ahead.

20. B -

This sign is used to enable pedestrians to walk free from traffic. It's often found in shopping areas.

21. D - No overtaking

Road signs that prohibit overtaking are placed in locations where passing the vehicle in front is dangerous. If you see this sign, don't attempt to overtake. The sign is there for a reason; you must obey it.

22. A - Waiting restrictions apply

There'll be a plate or additional sign to tell you when the restrictions apply.

23. B - End of restricted parking area

Even though you've left the restricted area, make sure that you park where you won't endanger other road users or cause an obstruction.

24. D -

Stopping where this clearway restriction applies is likely to cause congestion. Allow the traffic to flow by obeying the signs.

25. C - No stopping

This is the sign for a clearway. Clearways are stretches of road where you aren’t allowed to stop unless it’s an emergency. Stopping where these restrictions apply may be dangerous and is likely to cause an obstruction. Restrictions might apply for several miles and this may be indicated on the sign.

26. B - Distance to parking place ahead

If you intend to stop and rest, this sign allows you time to reduce speed and pull over safely.

27. D - Vehicles may park fully on the verge or footway

In order to keep roads free from parked cars, there are some areas where you're allowed to park on the verge. Only do this where you see the sign. Parking on verges or footways anywhere else could lead to a fine.

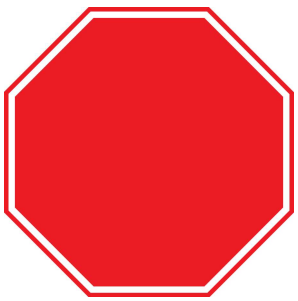
28. A - Give priority to oncoming traffic

Priority signs are normally shown where the road is narrow and there isn't enough room for two vehicles to pass. Examples are narrow bridges, roadworks and where there's a width restriction. Make sure you know who has priority; don't force your way through. Show courtesy and consideration to other road users.

29. A - You have priority over vehicles coming towards you

Don't force your way through. Show courtesy and consideration to other road users. Although you have priority, make sure oncoming traffic is going to give way before you continue.

30. C -



To make it easy to recognise, the ‘stop’ sign is the only sign of this shape. You must stop and take effective observation before proceeding.

31. A - Stop

The 'stop' sign is the only road sign that's octagonal. This is so that it can be recognised and obeyed even if it's obscured (for example, by snow).

32. A - Minimum speed 30 mph

This sign is shown where slow-moving vehicles would impede the flow of traffic; for example, in tunnels. However, if you need to slow down or even stop to avoid an incident or potential collision, you should do so.

33. D - Pass either side to get to the same destination

These signs are often seen in one-way streets that have more than one lane. When you see this sign, use the route that's the most convenient and doesn't require a late change of direction.

34. D - Route for trams

Take extra care when you encounter trams. Look out for road markings and signs that alert you to them. Modern trams are very quiet and you may not hear them approaching.

35. B - They give mandatory instructions

Signs with blue circles generally give mandatory instruction. These are often found in urban areas and include signs for mini-roundabouts and directional arrows.

36. A - On a one-way street

The traffic permitted to use a contraflow lane travels in the opposite direction to traffic in the other lanes on the road.

37. C - Contraflow bus lane

There will also be markings on the road surface to indicate the bus lane. You mustn't use this lane for parking or overtaking.

38. B - Tourist directions

Signs with a brown background give directions to places of interest. They're often seen on a motorway, directing you along the easiest route to the attraction.

39. B - Tourist attraction

These signs indicate places of interest and are designed to guide you by the easiest route. They're particularly useful when you're unfamiliar with the area.

40. B - To give warnings

Triangular signs warn you of hazards ahead. Make sure you look at each sign that you pass on the road, so that you don't miss any vital instructions or information.

41. C - T-junction

This type of sign warns you of hazards ahead. Make sure you look at each sign and road marking that you pass, so that you don't miss any vital instructions or information. This sign shows there's a T-junction with priority over vehicles from the right.

42. C - Risk of ice

It will take up to 10 times longer to stop when it’s icy. Where there's a risk of icy conditions, you need to be aware of this and take extra care. If you think the road may be icy, don’t brake or steer harshly, as your tyres could lose their grip on the road.

43. B - Crossroads

The priority through the junction is shown by the broader line. You need to be aware of the hazard posed by traffic crossing or pulling out onto a major road.

44. B - Roundabout

As you approach a roundabout, look well ahead and check all signs. Decide which exit you wish to take and move into the correct position as you approach the roundabout, signalling as required.

45. A - Road narrows

Warning signs are there to make you aware of potential hazards on the road ahead. Take note of the signs so you're prepared and can take whatever action is necessary.

46. D - Cycle route ahead

Where there's a cycle route ahead, a sign will show a bicycle in a red warning triangle. Watch out for children on bicycles and cyclists rejoining the main road.

47. B -

When you pass pedestrians in the road, leave plenty of room. You might have to use the right-hand side of the road, so look well ahead, as well as in your mirrors, before pulling out. Take great care if a bend in the road obscures your view ahead.

48. A -

Triangular signs give you a warning of hazards ahead. They're there to give you time to prepare for the hazard; for example, by adjusting your speed.

49. A - Give way to trams

Obey the 'give way' signs. Trams are unable to steer around you if you misjudge when it's safe to enter the junction.

50. A - Humps in the road

These humps have been put in place to slow the traffic down. They're usually found in residential areas. Slow down to an appropriate speed.

51. D -

If you’re overtaking, make sure you move back safely into the left-hand lane before you reach the end of the dual carriageway.

52. D - End of dual carriageway

Don't wait until the last moment before moving into the left-hand lane. Plan ahead and don't rely on other traffic letting you in.

53. C - Side winds

A warning sign with a picture of a windsock indicates that there may be strong side winds. This sign is often found on exposed roads.

54. C - Danger ahead

This sign is there to alert you to the likelihood of danger ahead. It may be accompanied by a plate indicating the type of hazard. Be ready to reduce your speed and take avoiding action.

55. D - Hold back until you can see clearly ahead

You won't be able to see any hazards that might be hidden in the dip. As well as oncoming traffic, the dip may conceal • cyclists • horse riders • parked vehicles • pedestrians in the road.

56. A - Level crossing with gate or barrier

Some crossings have gates but no attendant or signals. You should stop, look both ways, listen and make sure that no train is approaching. If there's a telephone, contact the signal operator to make sure it's safe to cross.

57. C - Trams crossing ahead

This sign tells you to beware of trams. If you don't usually drive in a town where there are trams, remember to look out for them at junctions and look for tram rails, signs and signals.

58. C - Steep hill downwards

This sign gives you an early warning that the road ahead will slope downhill. Prepare to alter your speed and gear. Looking at the sign from left to right will show you whether the road slopes uphill or downhill.

59. D - Water across the road

This sign is found where a shallow stream crosses the road. Heavy rainfall could increase the flow of water. If the water looks too deep or the stream has spread over a large distance, stop and find another route.

60. C - No through road on the left

This sign shows you that you can't get through to another route by turning left at the junction ahead.

61. C - No through road

You won't be able to find a through route to another road. Use this road only for access.

62. D -

Ring roads are designed to relieve congestion in towns and city centres.

63. D - The right-hand lane is closed

Yellow-and-black temporary signs may be used to inform you about roadworks or lane restrictions. Look well ahead. If you have to change lanes, do so in good time.

64. A - Contraflow system

If you use the right-hand lane in a contraflow system, you'll be travelling with no permanent barrier between you and the oncoming traffic. Observe speed limits and keep a good distance from the vehicle ahead.

65. C - Lane for heavy and slow vehicles

Where there's a long, steep, uphill gradient on a motorway, a crawler lane may be provided. This helps the traffic to flow by diverting the slower heavy vehicles into a dedicated lane on the left.

66. A - You must stop and wait behind the stop line

Whatever light is showing, you should know which light is going to appear next and be able to take appropriate action. For example, when amber is showing on its own, you'll know that red will appear next. This should give you ample time to anticipate and respond safely.

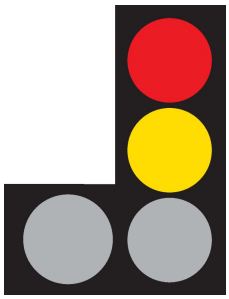
67. A - Stop at the stop line

When the amber light is showing on its own, the red light will follow next. The amber light means stop, unless you've already crossed the stop line or you're so close to it that stopping may cause a collision.

68. A - When your exit from the junction is blocked

As you approach the traffic lights, look into the road you wish to take. Only proceed if your exit road is clear. If the road is blocked, hold back, even if you have to wait for the next green signal.

69. B -



At some junctions, there may be separate signals for different lanes. These are called ‘filter’ lights. They’re designed to help traffic flow at major junctions. Make sure that you’re in the correct lane and proceed if the way is clear and the green light shows for your lane.

70. B - Traffic lights out of order

You might see this sign where traffic lights are out of order. Proceed with caution, as nobody has priority at the junction.

71. C - Nobody

When traffic lights are out of order, you should treat the junction as an unmarked crossroads. Be cautious, as you may need to give way or stop. Look for traffic attempting to cross the junction, unaware that it doesn’t have priority.

72. D - Level crossings

These signals are found at level crossings, swing or lifting bridges, some airfields and emergency access sites. The flashing red lights mean stop whether or not the way seems to be clear.

73. B - No parking at any time

The approach to, and exit from, a pedestrian crossing is marked with zigzag lines. You mustn't park on them or overtake the leading vehicle when approaching the crossing. Parking here would block the view for pedestrians and approaching traffic.

74. B - To pass a road maintenance vehicle travelling at 10 mph or less

You may cross the solid white line to pass a stationary vehicle or to pass a pedal cycle, horse or road maintenance vehicle if it's travelling at 10 mph or less. You may also cross the solid white line to enter a side road or access a property.

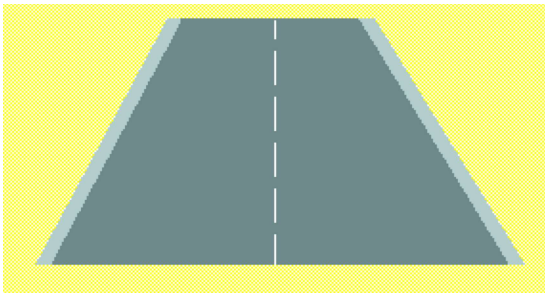
75. C - You're approaching a hazard

A single broken line along the centre of the road, with long markings and short gaps, is a hazard warning line. Don’t cross it unless you can see that the road is clear well ahead.

76. B - On road humps

Because the road has a dark colour, changes in level aren't easily seen. White triangles painted on the road surface give you an indication of where there are road humps.

77. A -



You need to know the difference between the normal centre line and a hazard warning line. If there's a hazard ahead, the markings are longer and the gaps shorter. This gives you advance warning of an unspecified hazard.

78. A - Visibility along the major road is restricted

Where emerging traffic has a very restricted view of the main road, you may find a 'stop' sign and a solid white stop line. You must stop at the line and then check carefully before you emerge.

79. A - Give way to traffic from the right

Slow down as you approach the roundabout and check for traffic from the right. If you need to stop and give way, stay behind the broken line until it's safe to emerge onto the roundabout.

80. C - Flash the headlights, indicate left and point to the left

You must obey signals given by the police. If a police officer in a patrol vehicle wants you to pull over, they'll indicate this without causing danger to you or other traffic.

81. A - Stop at the stop line

When a police officer or traffic warden is directing traffic, you must obey them. They'll use the arm signals shown in The Highway Code. Learn what these signals mean and obey them.

82. D - The driver intends to turn left

There might be an occasion where another driver uses an arm signal. This may be because the vehicle’s indicators are obscured by other traffic. In order for such signals to be effective, all drivers should know their meaning. Be aware that the ‘left turn’ signal might look similar to the ‘slowing down’ signal.

83. C - Change to the lane on your left

On the motorway, signs sometimes show temporary warnings due to traffic or weather conditions. They may be used to indicate • lane closures • temporary speed limits • weather warnings.

84. D - Temporary maximum speed 50 mph

Look out for signs above your lane or on the central reservation. These will give you important information or warnings about the road ahead. To allow for the high speed of motorway traffic, these signs may light up some distance from any hazard. Don't ignore the signs just because the road looks clear to you.

85. A - Right-hand lane closed ahead

You should change lanes as directed by the sign. Here, the right-hand lane is closed but the left-hand and centre lanes are available. Merging in turn is recommended when it's safe and traffic is going slowly; for example, at roadworks or a road traffic incident. When vehicles are travelling at speed, this isn't advisable and you should move into the appropriate lane in good time.

86. D - The number of the next junction

Before you set out on your journey, use a road map to plan your route. When you see an advance warning of your junction, make sure you get into the correct lane in plenty of time. Last-minute harsh braking and cutting across lanes at speed is extremely hazardous.

87. C - As an overtaking lane

You should stay in the left-hand lane of a motorway unless you're overtaking another vehicle. The right-hand lane of a motorway is an overtaking lane; it isn't the 'fast lane'. After overtaking, move back to the left when it's safe to do so.

88. A - On the right-hand edge of the road

At night or in poor visibility, reflective studs on the road help you to judge your position on the carriageway.

89. A - At slip-road entrances and exits

Knowing the colours of the reflective studs on the road will help you judge your position, especially at night, in foggy conditions or when visibility is poor.

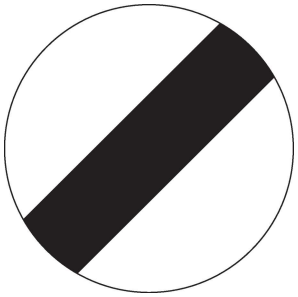
90. B - Leave the motorway at the next exit

You'll see this sign if the motorway is closed ahead. Pull into the left-hand lane as soon as it's safe to do so. Don't wait until the last moment before you move across, because the lane may be busy and you'll have to rely on another driver making room for you.

91. C - End of motorway

When you leave the motorway, make sure that you check your speedometer. You may be going faster than you realise. Slow down and look for speed-limit signs.

92. A -



You should know the speed limit for the road on which you're travelling and for your vehicle. The different speed limits are shown in The Highway Code.

93. C - 60 mph

If you’re travelling on a dual carriageway that becomes a single carriageway road, reduce your speed gradually so that you aren’t exceeding the limit as you enter. There might not be a sign to remind you of the limit, so make sure you know the speed limits for different types of road and vehicle.

94. C - End of restriction

Temporary restrictions on motorways are shown on signs that have flashing amber lights. At the end of the restriction, you'll see this sign without any flashing lights.

95. B - A diversion route

When a diversion route has been put in place, drivers are advised to follow a symbol, which may be a black triangle, square, circle or diamond shape on a yellow background.

96. B - Compulsory maximum speed limit

The sign gives you an early warning of a speed restriction. If you're travelling at a higher speed, slow down in good time. You could come across queuing traffic due to roadworks or a temporary obstruction.

97. C - Carry on with great care

When traffic lights are out of order, treat the junction as an unmarked crossroads. Be very careful and be prepared to stop; no-one has priority.

98. A - No motorcycles

You must comply with all traffic signs and be especially aware of those signs that apply specifically to the type of vehicle you're using.

99. D - Pass the lorry on the left

Sometimes work is carried out on the motorway without closing the lanes. When this happens, signs are mounted on the back of lorries to warn other road users of the roadworks ahead.

100. C - Don't continue in that lane

A red cross above your lane shows that your lane is closed. You should move into another lane as soon as you can do so safely.

101. A - To warn others of your presence

Never sound your vehicle's horn aggressively. You mustn't sound it in a built-up area between 11.30 pm and 7.00 am, or when you're stationary, unless another road user poses a danger. Don't scare animals by sounding your horn.

102. B - When another road user poses a danger

When your vehicle is stationary, only sound the horn if you think there's a risk of danger from another road user. Don't use it just to attract someone's attention. This causes unnecessary noise and could be misleading.

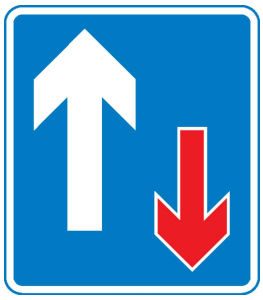
103. C - No parking on the days and times shown

Urban clearways are provided to keep traffic flowing at busy times. You may stop only briefly to set down or pick up passengers. Times of operation will vary from place to place, so always check the signs.

104. B - Quayside or river bank

You should be careful in these locations, as the road surface is likely to be wet and slippery. There may be a steep drop to the water, and there may not be a barrier along the edge of the road.

105. C -



Even though you have priority, be prepared to give way if other drivers don't. This will help to avoid congestion, confrontation or even a collision.

106. C - Hazard warning

The centre of the road is usually marked by a broken white line, with lines that are shorter than the gaps. When the lines become longer than the gaps, this is a hazard warning line. Look well ahead for these, especially when you're planning to overtake or turn off.

107. B - It separates traffic flowing in opposite directions

Areas of 'hatched markings' such as these separate traffic streams that could be a danger to each other. They're often seen on bends or where the road becomes narrow. If the area is bordered by a solid white line, you mustn't enter it except in an emergency.

108. A - They're warning you of their presence

If other drivers flash their headlights, this isn’t a signal to show priority. The flashing of headlights has the same meaning as sounding the horn: it’s a warning of their presence.

109. C - Trams must stop

The white light shows that trams must stop. The green light shows that other vehicles can go if the way is clear. Trams are being introduced into more cities, so you're likely to come across them and you should learn which signs apply to them.

110. C - At a mini-roundabout

These markings show the direction in which the traffic should go at a mini-roundabout.

111. A - Pull up on the left

You must pull up on the left as soon as it’s safe to do so and switch off your engine.

112. B - Red alone

At junctions controlled by traffic lights, you must stop behind the white line until the lights change to green. A red light, an amber light, and red and amber lights showing together all mean stop. You may proceed when the light is green unless your exit road is blocked or pedestrians are crossing in front of you. If you’re approaching traffic lights that are visible from a distance and the light has been green for some time, be ready to slow down and stop, because the lights are likely to change.

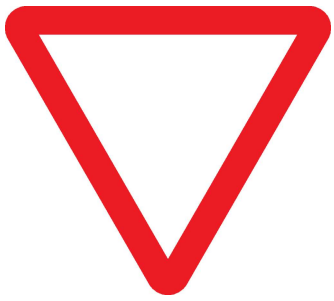
113. B - Leave the motorway at the next exit

You'll see this sign if there has been an incident ahead and the motorway is closed. You must obey the sign. Make sure that you prepare to leave in good time. Don’t cause drivers to take avoiding action by cutting in at the last moment.

114. C - Stop even if the road is clear

'Stop' signs are situated at junctions where visibility is restricted or where there's heavy traffic. They must be obeyed: you must stop. Look carefully before moving off.

115. D -



Other warning signs are the same shape and colour, but the 'give way' triangle points downwards. When you see this sign, you must give way to traffic on the road that you're about to enter.

116. A - Mini-roundabout

When you see this sign, look out for any direction signs and judge whether you need to signal your intentions. Do this in good time so that other road users approaching the roundabout know what you're planning to do.

117. C - Two-way traffic crosses a one-way road

Be prepared for traffic approaching from junctions on either side of you. Try to avoid unnecessary changing of lanes just before the junction.

118. A - Two-way traffic straight ahead

This sign may be at the end of a dual carriageway or a one-way street. It's there to warn you of oncoming traffic.

119. B - Hump bridge

You'll need to slow down. At hump bridges, your view ahead will be restricted and the road will often be narrow. If the bridge is very steep, sound your horn to warn others of your approach. Going over the bridge too fast is highly dangerous to other road users and could even cause your wheels to leave the road, with a resulting loss of control.

120. A -

This sign is found at the entrance to a road that can only be used for access.

121. B - Direction to park-and-ride car park

To ease the congestion in town centres, some cities and towns provide park-and-ride schemes. These allow you to park in a designated area and ride by bus into the centre. Park-and-ride schemes are usually cheaper and easier than car parking in the town centre.

122. A - Wait for the green light

Be aware that other traffic might still be clearing the junction as you approach. A green light means you may go on, but only if the way is clear.

123. D - Wait

You must always obey red flashing stop lights. If a train passes but the lights continue to flash, another train will be passing soon. Cross only when the lights go off and the barriers open.

124. B - Direction to an emergency pedestrian exit

If you have to leave your vehicle and get out of a tunnel by an emergency exit, do so as quickly as you can. Follow the signs directing you to the nearest exit point. If there are several people using the exit, don’t panic but try to leave in a calm and orderly manner.

125. C -

If the road has two lanes, you can use either lane and overtake on either side. Use the lane that’s more convenient for your destination unless signs or road markings indicate otherwise.

126. B - With-flow bus and cycle lane

Buses and cycles can travel in this lane. In this example, they'll flow in the same direction as other traffic. If it's busy, they may be passing you on the left, so watch out for them. Times on the sign will show the lane's hours of operation; if no times are shown, or there's no sign at all, this means the lane is in operation 24 hours a day. In some areas, other vehicles, such as taxis and motorcycles, are allowed to use bus lanes. The sign will show if this is the case.

127. B -

Look well ahead and check the pavements and surrounding areas for pedestrians. Look for anyone walking towards the crossing. Check your mirrors for traffic behind, in case you have to slow down or stop.

128. D - Zebra crossing ahead

Look well ahead and be ready to stop for any pedestrians crossing, or about to cross, the road. Also check the pavements for anyone who looks like they might step or run into the road.

129. A -

This sign is found in or at the end of a one-way system. It warns you that traffic will be crossing your path from both directions.

130. C -

There may be occasions when drivers need to give an arm signal to confirm their intentions. This could include in bright sunshine, at a complex road layout, when stopping at a pedestrian crossing or when turning right just after passing a parked vehicle. You should understand what each arm signal means. If you give arm signals, make them clear, correct and decisive.

131. A -

Blue circles tell you what you must do and this sign gives a clear instruction to turn left ahead. You should be looking out for signs at all times and know what they mean.

132. B - All traffic is going one way

In a one-way system, traffic may pass you on either side. Always be aware of all traffic signs and understand their meaning. Look well ahead and react to them in good time.

133. D - Red and amber

If you know which light is going to show next, you can plan your approach accordingly. This can help prevent excessive braking or hesitation at the junction.

134. D - Tunnel ahead

When approaching a tunnel, switch on your dipped headlights. Be aware that your eyes might need to adjust to the sudden darkness. You may need to reduce your speed.

135. D - Lookout for buses and pedal cycles approaching from the right

This sign is a reminder to pedestrians to lookout for buses and pedal cycles approaching from the right.

136. C - Stopping place for buses

This sign shows that this is a stopping place for buses.

137. D - Stopping place for tourist buses

This sign shows that this is a stopping place for tourist buses to allow passengers to take photographs.

138. B - Local Buses may stand at all times

This sign tells you that this is a place where local buses may stand, from which all other vehicles are prohibited during the times shown.

139. C - Shared route for pedal cycles and pedestrians only

This sign shows that this is a shared route for pedal cycles and pedestrians only.

140. A - Pedal cycles are prohibited

This sign tells you that riding pedal cycles is prohibited.

141. D - Separated track and path for pedal cycles and pedestrians

Separated track and path for pedal cycles and pedestrians.

142. C - Route for pedal cycles only

This sign shows a route that is for pedal cycles only.

143. B - Pedal cycle route crossing or joining road ahead

This sign warns you of a pedal cycle route crossing or joining road ahead.

144. C - Waiting restrictions

This yellow panel indicates that there are waiting restrictions within the zone.

145. B - Waiting prohibited 24 hours a day, 7 days a week, for 4 consecutive months

This sign tells you that waiting is prohibited 24 hours a day, 7 days a week, for at least 4 consecutive months.

146. A - Waiting prohibited between times shown on the sign

This sign tells you that waiting is prohibited between times shown.

147. C - Pedal cyclists to dismount at end of a cycle lane, track or route

This sign tells pedal cyclists to dismount at end of a cycle lane, track or route.

148. B - parked partially on the verge or footway

This sign tells you that vehicles may be parked partially on the verge or footway.

149. A - No stopping

No stopping, not even to pick up or set down passengers.

150. D - No vehicles except pedal cycles being pushed by hand

A circular road sign with a red border indicates a prohibition. In this case, no vehicles, except pedal cycles being pushed by hand, are allowed to proceed.

151. A - Distance to deceleration lane

Countdown markers indicate the distance to the start of the deceleration lane. Each bar represents about 100 yards.

152. C - Leave motorway at next exit

This is tells you to leave the motorway at the next exit.

153. C - Nature Reserve

Symbols are often used to indicate the type of destination. This one is for a Nature Reserve.

154. C - Beach

Symbols are often used to indicate the type of destination. This one is for a Beach.

155. B - Diversion Route

This is a sign that indicates a diversion route.

156. D - Vehicle checks

Temporary signs like this are put out when vehicles are to be stopped for an excise licence check or vehicle inspection.

157. C - Lane ahead is closed and traffic should move to the next lane on the left

A white diagonal arrow means that the lane is closed ahead and traffic should move to the next lane on the left.

158. D - Road-charging schemes

This sign is used to indicate road-charging schemes.

159. D - Traffic signals ahead

This sign indicates traffic signals ahead.

160. C - No right turn

This sign indicates that there is no right turn.

161. A - On a motorway

You would usually see this sign on a motorway.

162. B - Stop

Alternatively flashing red lights indicate that you must stop.

163. A - End of temporary restrictions

This sign indicates an end of temporary restrictions.

164. B - Roundabout

This sign indicates a roundabout.

165. C - Mandatory with-flow pedal cycle lane

This sign indicates a mandatory with-flow pedal cycle lane. Other vehicles must not use this part of the carriageway except to pick up or set down passengers.

166. D - Temporary maximum speed

This sign shows the temporary maximum speed, advised for prevailing traffic conditions.

167. B - It's a T-junction

This is a warning sign and it tells you that you are at a T-junction.

168. A - You are at a crossroads

This is a warning sign and it tells you that you are at a crossroads.

169. C - Traffic merges from the left

This warning sign tells you about merging traffic on your left.

170. B - The roundabout sign

The following plate can be used together with "roundabout" or "bend" signs.

171. C - End of dual carriageway

This sign warns you that you have reached the end of the dual carriageway.

172. A - An upcoming bridge

This triangular sign warns you about an upcoming hump bridge.

173. A - Soft verges

This sign warns you of soft verges.

174. B - Slippery road

This sign warns you that the road is slippery.

175. B - Risk of falling rocks

This warning sign warns you about falling or fallen rocks.

176. A - Slow-moving vehicles

This sign warns you about slow-moving vehicles.

177. D - Traffic queues likely ahead

This warning sign tells you about likely queues ahead.

178. B - Pedestrians on road

This sign warns you of pedestrians on the road.

179. D - Horse-drawn vehicles likely to be on the road

This sign warns you that horse-drawn vehicles are likely to be on the road.

180. D - Double bend first to the left

This triangular sign warns you about a double bend to your left.

181. C - No motor vehicles except solo motorcycles

A red ring means prohibition. The sign tells you that no motor vehicles are allowed apart from solo motorcycles.

182. C - No ridden or accompanied horses

A red circle indicates prohibition. The sign tells you than no ridden or accompanied horses are allowed here.

183. B - No pedestrians

A red circle indicates prohibition. The sign tells you than no pedestrians are allowed.

184. D - No vehicles or combinations of vehicles over maximum length shown

This is a regulatory sign with a red circle suggesting some sort of prohibition. The sign tells you that no vehicles or combinations of vehicles over maximum length shown are allowed.

185. C - No overtaking

A red circle indicates prohibition. This is a sign for no overtaking.

186. A - Give way to oncoming vehicles

Where a road or bridge is very narrow, priority must be given to traffic from the other direction (there will usually be a ""give way"" line indicating where to wait).

187. A - Keep left

A blue circle usually indicates a positive instruction. The sign tells you to keep left.

188. D - One-way traffic

A blue sign indicates a positive instruction. It is telling you that there is one-way traffic ahead.

189. D - The national speed limit applies

The national speed limit for the type of road and class of traffic applies.

190. D - Not exceed 40 mph

The sign tells you the maximum speed limit (in miles per hour/mph) at which you should drive if it's safe to do so.

191. A - At the start of a motorway

This sign is found at the start of a motorway. It tells you the motorway regulations and includes the national speed limit (unless a different speed limit is signed).

192. A - Minimum speed permitted, in mph

This is a minimum speed permitted sign. You should drive at over 30 mph unless it is impracticable or unsafe to.

193. D - End of minimum speed requirement

This is an end of minimum speed requirement sign.

194. A - Speed camera nearby on a road with a 30 mph speed limit

This sign means that there is a speed camera nearby on a lit road with a 30 mph speed limit (i.e. where there are no speed limit repeater signs).

195. B - Enforcement cameras are in use

This sign is a reminder that enforcement cameras are in use (may be supplemented by a speed limit sign).

196. A - Start of a speed limit at the boundary of a town or village

This is a start of a speed limit sign. It is found at the boundary of a town or village.

197. D - Two cameras are in use to measure average speed

Cameras are in operation on this road. Two cameras are used to measure the average speed of a vehicle between two points.

198. A - No vehicles over the height shown may pass the sign

No vehicles over the height shown may pass the sign (height shown in metric and imperial units).

199. B - Height restriction ahead

Advance warning of a mandatory height restriction ahead; the sign may include an arrow, if the restriction is on a side road.

200. D - Level crossing with a gate or barrier

This sign tells you that there is a level crossing with a gate or barrier.

201. B - Level crossing without a gate or barrier

This sign is used to indicate a level crossing without a gate or barrier.

202. D - Level crossing

This plate is used with level crossing warning signs: advance warning of light signals at a level crossing with or without a gate or barrier.

203. A - Electrified overhead cable

This sign tells you about an electrified overhead cable and the safe height beneath it (usually associated with an overhead electrified railway or tramway). On the approach to a junction, the plate may include an arrow to indicate the direction of the level crossing.

204. C - Height of vehicle

Bells suspended over the road at a railway crossing give an audible warning to drivers of vehicles that exceed the safe height beneath electrified overhead cables.

205. A - Grounding

Long low vehicles may be at risk of grounding; drivers of such vehicles must phone before crossing.

206. D - Distance

Countdown markers divide the distance between the advance warning sign and the stop line into three equal parts. Each sloping bar represents a certain distance.

207. D - It is not safe to cross

This sign tells you that it is not safe to cross. Pedestrians should stop at the pedestrian stop line.

208. A - Large or slow vehicles

Drivers of large or slow vehicles should park near a level crossing while contacting the signal operator.

209. C - there are no gates or barriers

The St Andrew’s cross is used at level crossings where there are no gates or barriers.

210. C - Stop

You must always STOP when you see this sign. If there is more than one railway line over an automatic crossing, this signal will also flash and the sound of the audible warning will change if another train is approaching.

211. C - Lookout for trams approaching from both directions

This sign reminds pedestrians to lookout for trams approaching from both directions.

212. D - Trams crossing the road ahead

This sign warns you of trams crossing the road ahead.

213. C - No local buses

This sign means that vehicles designed to carry more than 8 passengers (excluding driver) or local buses are not permitted.

214. D - Buses, cycles and taxis

This sign shows a with-flow bus lane ahead. It can be used by buses, pedal cycles and taxis.

215. C - Buses and pedal cycles only

This sign shows that this route is for buses and pedal cycles only (cycles not admitted when cycle symbol not shown; taxis admitted when "taxi" shown in upper sign).

216. A - Parking place for buses only (no time limit)

This sign means that this is a parking place for buses only (no time limit).

217. A - No stopping at times shown

On red routes, a single red line means no stopping during the times shown on the sign. Double red lines mean no stopping at any time.
